

PROSPECTUS

OF

SVS CHURCH HOUSE ESK GLOBAL EQUITY FUND

(A UCITS scheme)

Valid as at 06 March 2015

ST VINCENT ST FUND ADMINISTRATION

(A trading name of Smith & Williamson Fund Administration Limited)

INVESTMENT MANAGER: CHURCH HOUSE INVESTMENT MANAGEMENT

(A trading name of Church House Investments Limited)

Prospectus

of

SVS Church House Esk Global Equity Fund

This document constitutes the Prospectus for SVS Church House Esk Global Equity Fund (the “Trust”) which has been prepared in accordance with the Collective Investment Schemes Sourcebook.

This Prospectus is dated, and is valid as at, 06 March 2015.

Copies of this Prospectus have been sent to the Financial Conduct Authority and the Trustee.

The Prospectus is based on information, law and practice at the date hereof. The Trust is not bound by any out of date prospectus when it has issued a new prospectus and potential investors should check that they have the most recently published prospectus.

Smith & Williamson Fund Administration Limited, the manager of the Trust, is the person responsible for the information contained in this Prospectus. To the best of its knowledge and belief (having taken all reasonable care to ensure that such is the case) the information contained herein does not contain any untrue or misleading statement or omit any matters required by the Collective Investment Schemes Sourcebook to be included in it. Smith & Williamson Fund Administration Limited accepts responsibility accordingly.

IMPORTANT: IF YOU ARE IN ANY DOUBT ABOUT THE CONTENTS OF THIS PROSPECTUS YOU SHOULD CONSULT YOUR PROFESSIONAL ADVISER.

DISCLAIMER

No person has been authorised by the Manager to give any information or to make any representations in connection with the offering of Units other than those contained in the Prospectus and, if given or made, such information or representations must not be relied on as having been made by the Manager. The delivery of this Prospectus (whether or not accompanied by any reports) or the issue of units shall not, under any circumstances, create any implication that the affairs of the Trust have not changed since the date hereof.

The distribution of this Prospectus and the offering of Units in certain jurisdictions may be restricted. Persons into whose possession this Prospectus comes are required by the Manager to inform themselves about and to observe any such restrictions. This Prospectus does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation.

The Units have not been and will not be registered under the United States Securities Act of 1933, as amended. They may not be offered or sold in the United States of America, its territories and possessions, any state of the United States of America and the District of Columbia or offered or sold to US Persons.

Potential investors should not treat the contents of this Prospectus as advice relating to legal, taxation, investment or any other matters and are recommended to consult their own professional advisers concerning the acquisition, holding or disposal of Units.

The provisions of the Trust Deed are binding on each of the Unitholders a summary of which are included in this Prospectus and a copy of the Trust Deed is available on request.

This Prospectus has been issued for the purpose of section 21 of the Financial Services and Markets Act 2000 by Smith & Williamson Fund Administration Limited.

The distribution of this Prospectus in certain jurisdictions may require that this Prospectus is translated into the official language of those countries. Should any inconsistency arise between the translated version and the English version, the English version shall prevail.

This Prospectus is based on information, law and practice at the date hereof. The Manager cannot be bound by an out of date prospectus when it has issued a new prospectus and investors should check with Smith & Williamson Fund Administration Limited that this is the most recently published prospectus.

The Trustee is not a person responsible for the information contained in this Prospectus and accordingly does not accept any responsibility therefore under the FCA Regulations or otherwise.

1. **DEFINITIONS**

- “Approved Bank”** (in relation to a bank account opened by the Manager):
- (a) if the account is opened at a branch in the United Kingdom:
 - (i) the Bank of England; or
 - (ii) the central bank of a member state of the OECD; or
 - (iii) a bank; or
 - (iv) a building society; or
 - (v) a bank which is supervised by the central bank or other banking regulator of a member state of the OECD; or
 - (b) if the account is opened elsewhere:
 - (i) a bank in (a); or
 - (ii) a credit institution established in an EEA State other than in the United Kingdom and duly authorised by the relevant Home State Regulator; or
 - (iii) a bank which is regulated in the Isle of Man or the Channel Islands; or
 - (iv) a bank supervised by the South African Reserve Bank;
- “Auditor”** KPMG Audit Plc, or such other entity as is appointed to act as auditor to the Trust from time to time;
- “Business Day”** a day on which the London Stock Exchange is open. If the London Stock Exchange is closed as a result of a holiday or for any other reason, or there is a holiday elsewhere or other reason which impedes the calculation of the fair market value of the Trust’s portfolio of securities or a significant portion thereof, the Manager may decide that any business day shall not be construed as such;
- “Class” or “Classes”** in relation to Units, means (according to the context) a particular class or classes of Unit;

“COLL”	refers to the appropriate chapter or rule in the COLL Sourcebook;
“the COLL Sourcebook”	the Collective Investment Schemes Sourcebook issued by the FCA as amended from time to time;
“Dealing Day”	Monday to Friday where these days are Business Days;
“EEA State”	a member state of the European Union and any other state which is within the European Economic Area;
“Efficient Portfolio Management” or “EPM”	an investment technique where derivatives are used in a way which is economically appropriate in that they are realised in a cost effective way, and are entered into for one or more of the following specific aims: (i) reduction of risk; (ii) reduction of cost; or (iii) the generation of additional capital or income with a risk level which is consistent with the risk profile of the Trust and the risk diversification rules laid down in the COLL Sourcebook;
“Eligible Institution”	one of certain eligible institutions as defined in the glossary of definitions to the FCA Handbook;
“the FCA”	the Financial Conduct Authority or such successor regulatory authority as may be appointed from time to time, and (where applicable) its predecessors including the Financial Services Authority;
“the FCA Handbook”	the FCA Handbook of Rules and Guidance, as amended from time to time;
“Investment Manager”	Church House Investments Limited, the investment manager to the Manager in respect of the Trust;
“Manager”	Smith & Williamson Fund Administration Limited, (trading as St Vincent St Fund Administration), the Manager of the Trust;
“NAV” or “value”	the value of the Scheme Property less the liabilities of the Trust as calculated in accordance with the Trust Deed;
“Ongoing charges figure (OCF)”	the ongoing charges figure is based on the last year’s expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
“Ongoing charges figure (estimated)”	where there is not enough historic data available, or when historic data will not provide a reliable indication of future costs, an estimated ongoing

	charges figure will be calculated based on the most reliable information available.
“Register”	the register of Unitholders of the Trust;
“Registrar”	Smith & Williamson Fund Administration Limited (trading as St Vincent St Fund Administration), or such other entity as is appointed to act as Registrar to the Trust from time to time;
“Regulated Activities Order”	the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 (SI 2001/544) as amended;
“Regulations”	the FCA Handbook (including the COLL Sourcebook);
“Scheme Property”	the scheme property of the Trust required under the COLL Sourcebook to be given for safekeeping to the Trustee;
“SDRT”	stamp duty reserve tax;
“Switch”	the exchange where permissible of Units of one class for Units of another class;
“Trust Deed”	the trust deed constituting the Trust, as amended from time to time in accordance with the COLL Sourcebook;
“Trust”	SVS Church House Esk Global Equity Fund;
“Trustee”	BNY Mellon Trust & Depositary (UK) Limited, or such other entity as is appointed to act as Trustee;
“UCITS scheme”	a scheme constituted in accordance with the UCITS Directive (a European Directive relating to undertakings for collective investment in transferable securities which has been adopted in the UK);
“Unit” or “Units”	a unit or units in the Trust ;
“Unitholder”	a holder of registered Units in the Trust;
“Valuation Point”	the point, on a Dealing Day whether on a periodic basis or for a particular valuation, at which the Manager carries out a valuation of the Scheme Property for the Trust for the purpose of determining the price at which Units of a Class may be issued, cancelled or redeemed. The current Valuation Point is 12 noon London time on each Dealing Day, with the exception of Christmas Eve and New Year’s Eve or a bank holiday in England

and Wales, or the last business day prior to those days annually where the valuation may be carried out at a time agreed in advance between the Manager and the Trustee;

“VAT”

value added tax;

2. DETAILS OF THE TRUST

2.1 General Information

General

SVS Church House Esk Global Equity Fund (the Trust) is a unit trust authorised by the Financial Conduct Authority with effect from 25 October 1996. The Trust has an unlimited duration.

Unitholders are not liable for the debts of the Trust.

The Manager is also the manager of certain authorised unit trusts and open-ended investment companies details of which are set out in Appendix V.

Base Currency

The base currency of the Trust is Pounds Sterling or such other currency as may be the lawful currency of the UK from time to time.

Units

Units in the Trust may be marketed in other Member States and in countries outside the European Union and European Economic Area, subject to the Regulations, and any regulatory constraints in those countries, if the Manager so decides.

The Trust is designed and managed to support longer-term investment and active trading is discouraged. Short-term or excessive trading into and out of the Trust may harm performance by disrupting portfolio management strategies and by increasing expenses. The Manager may at its discretion refuse to accept applications for, or switching of, Units, especially where transactions are deemed disruptive, particularly from possible market timers or investors who, in its opinion, have a pattern of short-term or excessive trading or whose trading has been or may be disruptive to the Trust. For these purposes, the Manager may consider an investor's trading history in the Trust or other Smith & Williamson Fund Administration Limited funds and accounts under common ownership or control.

2.2 The Structure of the Trust

The Trust

The Trust is a UCITS scheme.

Investment of the assets of the Trust must comply with the COLL Sourcebook and the investment objective and policy of the Trust. Details of the Trust, including its investment objective and policy, are set out in Appendix I.

The eligible securities markets and eligible derivatives markets on which the Trust may invest are set out in Appendix II. A detailed statement of the general investment and borrowing restrictions in respect of the Trust is set out in Appendix IV.

Units

Classes of Units Within the Trust

The rights represented by Units are those of a beneficial interest under a trust.

Units do not carry preferential or pre-emptive rights to acquire further Units.

Further classes of Units may be established from time to time by the Manager with the approval of the FCA, the agreement of the Trustee and in accordance with the Trust Deed. On the introduction of any new class, either a revised prospectus or a supplemental prospectus will be prepared, setting out the details of each class.

The currency in which each new class of units will be denominated will be determined at the date of creation and set out in the Prospectus issued in respect of the new class of Units.

The Trust may issue income and accumulation Units, although only income Units are currently in issue. Further details of the Units presently available, including details of their criteria for subscription and fee structure, are set out in Appendix I.

Holders of income Units are entitled to be paid the distributable income attributed to such Units on any relevant interim and annual allocation dates.

Holders of accumulation Units are not entitled to be paid the income attributed to such Units, but that income is automatically transferred to (and retained as part of) the capital assets of the Trust on the relevant interim and/or annual accounting dates. This is reflected in the price of an accumulation Unit.

The Trust Deed allows gross income and gross accumulation Units to be issued, as well as net income and net accumulation Units, but currently none are in issue. Net Units are Units in respect of which income allocated to them is distributed periodically to the relevant Unitholders (in the case of income Units) or credited periodically to capital (in the case of accumulation Units), in either case in accordance with relevant tax law, net of any tax deducted or accounted for by the Trust. Gross Units are income or accumulation Units where, in accordance with relevant tax law, distribution or allocation of income is made without any tax being deducted or accounted for by the Trust. All references in this Prospectus are to net Units unless otherwise stated.

Where the Trust has different classes, each class may attract different charges and so monies may be deducted from the Scheme Property attributable to such classes in unequal proportions. In these circumstances, the proportionate interests of the classes will be adjusted accordingly.

Unitholders are entitled (subject to certain restrictions) to switch all or part of their Units in a class for Units of another class. Details of this switching facility and the restrictions are set out in paragraph 6 “Switching”.

3. **BUYING, SELLING AND SWITCHING UNITS**

4. The dealing office of the Manager is open from 9.00 am until 5.00 pm on each Business Day to receive requests for the purchase, redemption and switching of Units, which will be effected at prices determined at the next Valuation Point following receipt of such request. Telephone calls may be recorded for training and monitoring purposes. The Manager may also, at its discretion, introduce further methods of dealing in Units in the future.

BUYING UNITS

4.1 Procedure

Initial investments can only be made by sending a completed application form to the Transfer Agency Team of the Manager either (i) accompanied by a cheque (up to £50,000), or (ii) having made a telegraphic transfer to the Manager's bank account. Application forms are available from the Manager. The Manager will accept written instructions on subsequent transactions with payment which can be carried out by writing to the Manager's Transfer Agency team at the address set out in Appendix 7. The Manager will also accept telephone purchase instructions from FCA authorised entities for subsequent investments, by telephone to Transfer Agency Team of the Manager on 0141 222 1150.

Where an instruction has been received by telephone, settlement is due within 4 Business Days of the Valuation Point. Purchases made by telephone are subject to risk limits at the Manager's discretion, and the Manager may at its discretion reject or defer an instruction to purchase Units until it is in receipt of cleared funds for the purchase (when the purchase of Units will be placed at the next Valuation Point following receipt of cleared funds). An order for the purchase of Units will only be deemed to have been accepted by the Manager once it is in receipt of cleared funds for the application.

The Manager, at its discretion has the right to cancel a purchase deal if settlement is materially overdue (being more than 5 Business Days of receipt of an application form or other instruction) and any loss arising on such cancellation shall be the liability of the applicant. The Manager is not obliged to issue Units unless it has received cleared funds from an investor.

The Manager reserves the right to charge interest at 4% per annum above the prevailing Bank of England Base rate, on the value of any settlement received later than the 4th Business Day following the Valuation Point.

The Manager may accept applications to purchase Units by electronic communication. Electronic communication does not include email. Subsequent transactions will be processed as at the next Dealing Day.

The Manager has the right to reject, on reasonable grounds relating to the circumstances of the applicant, any application for Units in whole or part, and in this event the Manager will return any money sent, or the balance of such monies, at the risk of the applicant. In addition the Manager may reject any application previously accepted in circumstances where the applicant has paid by cheque and that cheque subsequently fails to be cleared. Any subscription monies remaining after a whole number of Units has been issued will not be returned to the applicant. Instead, fractions of Units will be issued in such circumstances.

No interest payment will be made on client money held by the Manager, prior to investment in the Trust. Client money will be held in a designated client account with the Royal Bank of Scotland plc or Smith & Williamson Investment Services Limited. No more than 20% of client money will be held with Smith & Williamson Investment Services Limited, a company within the same group as the Manager.

Unitholders have the right to cancel their transactions within 14 calendar days of receipt of their contract note. If a Unitholder cancels their contract, they will receive a refund of the amount that they invested including the initial charge either in full or less a deduction to reflect any fall in Unit price since the date of investment. This may result in a loss on the part of Unitholders. If Unitholders wish to exercise their right to cancel they should write to the Transfer Agency team at 206 St Vincent Street, Glasgow G2 5SG. Unitholders will not be able to exercise their cancellation rights after 14 calendar days of receipt of their contract note. Unitholders should note that in certain circumstances, there may be a delay in returning their investment.

4.2 Documents the Buyer Will Receive

A contract note giving details of the Units purchased and the price used will be issued to the Unitholder (the first named, in the case of joint Unitholders) by the end of the next Business Day following the valuation point by reference to which the purchase price is determined, together with a notice of the applicant's right to cancel.

Settlement is due on receipt by the purchaser of the contract note.

Unit certificates will not be issued in respect of Units. Ownership of Units will be evidenced by an entry on the Trust's register of Unitholders. Statements in respect of half yearly distributions of income will show the number of Units held by the recipient in respect of which the distribution is made. Individual statements of a Unitholder's (or, when Units are jointly held, the first named holder's) Units will also be issued at any time on request by the registered holder.

4.3 Minimum Subscriptions and Holdings

The minimum initial and subsequent subscription levels, and minimum holdings, are set out in Appendix 1. The Manager may at its discretion accept subscriptions lower than the minimum amount.

If a holding is below the minimum holding the Manager has discretion to require redemption of the entire holding.

5. SELLING UNITS

5.1 Procedure

Every Unitholder has the right to require that the Trust redeem his Units on any Dealing Day unless the value of Units which a Unitholder wishes to redeem will mean that the Unitholder will hold Units with a value less than the required minimum holding, in which case the Unitholder may be required to redeem his entire holding.

Requests to redeem Units may be made in writing to the Manager's Transfer Agency team at 206 St Vincent Street, Glasgow G2 5SG. The Manager may also, at its discretion and by prior agreement, accept instructions to redeem Units from FCA regulated entities by telephone on 0141 222 1150 or by fax.

The Manager may accept requests to sell Units by electronic communication or transfer Units on the authority of an electronic communication. Electronic communication does not include email.

5.2 Documents the Seller Will Receive

A contract note giving details of the number and price of Units sold will be sent to the selling Unitholder (the first named, in the case of joint Unitholders) or their duly authorised agents together (if sufficient written instructions have not already been given) with a form of renunciation for completion and execution by the Unitholder (and, in the case of a joint holding, by all the joint holders) not later than the end of the next Business Day following the valuation point by reference to which the redemption price is determined. A BACS or CHAPS transfer will be made in satisfaction of the redemption monies within four Business Days of the later of:

receipt by the Manager of the form of renunciation (or other sufficient written instructions) duly signed by all the relevant Unitholders and completed as to the appropriate number of Units, together with any other appropriate evidence of title; and

the valuation point following receipt by the Manager of the request to redeem.

5.3 **Minimum Redemption**

Part of a Unitholder's holding may be sold but the Manager reserves the right to refuse a redemption request if the value of the Units to be redeemed is less than any minimum redemption amount set out in Appendix 1 or would result in a Unitholder holding less than the minimum holding, as detailed in Appendix 1. In the latter case the Unitholder may be asked to redeem their entire Unitholding.

5.4 **Direct Issue or Cancellation of Units**

There is no facility for direct issue or cancellation of Units by the Trustee.

6. **SWITCHING**

6.1 If applicable, a holder of Units may at any time switch all or some of his Units ("Old Units") for Units of another class of the Trust ("New Units"). The number of New Units issued will be determined by reference to the respective prices of New Units and Old Units at the valuation point applicable at the time the Old Units are repurchased and the New Units are issued.

6.2 Switching may be effected by writing to the Manager and the Unitholder may be required to complete a switching form (which, in the case of joint Unitholders must be signed by all the joint holders). The Manager may, at its sole discretion and by prior agreement, accept switching instructions by telephone from FCA regulated entities only. The Manager may accept requests to switch Units by electronic communication. Electronic communication does not include email.

6.3 The Manager may at its discretion charge a fee on the switching of Units between classes. These fees are set out in Appendix 1.

6.4 If the switch would result in the Unitholder holding a number of Old Units or New Units of a value which is less than the minimum holding, the Manager may, if it thinks fit, convert the whole of the applicant's holding of Old Units to New Units or refuse to effect any switch of the Old Units. No switch will be made during any period when the right of Unitholders to require the redemption of their Units is suspended. The general provisions on selling Units shall apply equally to a switch.

6.5 The Manager may adjust the number of New Units to be issued to reflect the imposition of any switching fee together with any other charges or levies in respect of the issue or sale of the New Units or repurchase or cancellation of the Old Units as may be permitted pursuant to the FCA Regulations.

6.6 A switch of Units between different Unit classes will not be deemed to be a realisation for the purposes of capital gains taxation.

6.7 A Unitholder who switches Units in one class for Units in any other class will not be given a right by law to withdraw from or cancel the transaction.

6.8 **Unit Class Conversions**

6.8.1 If applicable, a holder of units in a Unit Class ("Old Class Units") of a Fund may exchange all or some of his units for units of a different Unit Class within the same Fund ("New Unit Class"). An exchange of Old Class Units for New Class Units will be processed as a conversion ("Unit Class Conversion"). Unlike a Switch, a conversion of Old Class Units into New Class Units will not involve a redemption and issue of units. This transaction will not be

included in the calculations for Stamp Duty Reserve Tax (see “Taxation” for further details), and for the purposes of Income Equalisation the New Class Units will receive the same treatment as the Old Class Units.

- 6.8.2 The number of New Class Units issued will be determined by a conversion factor calculated by reference to the respective prices of New Units and Old Units at the valuation point applicable at the time the Old Class Units are converted to New Class Units.
- 6.8.3 Conversions may be effected by writing to the Transfer Agency Team (which, in the case of joint unitholders must be signed by all the joint holders). A converting unitholder must be eligible to hold the units into which the conversion is to be made. The Manager may, at its discretion and by prior agreement, accept conversion instructions by telephone from FCA regulated entities only. It is the Manager’s intention that Unit Class Conversions will be processed at the next Valuation Point following receipt of the instruction, however the Manager reserves the right to defer a Unit Class Conversion until no later than after the next Annual Accounting Date if it is in the interests of other Unitholders.
- 6.8.4 If the conversion would result in the Unitholder holding a number of Old Class Units or New Class Units of a value which is less than the minimum holding in the Unit Class concerned, the Manager may, if it thinks fit, convert the whole of the applicant’s holding of Old Class Units to New Class Units or refuse to effect any conversion of the Old Units.
- 6.8.5 Please note that, under current tax law, a conversion of units between different unit classes in the same Sub-fund will not be deemed to be a realisation for the purposes of capital gains taxation.
- 6.8.6 A unitholder who converts their units in one unit class to units in a different unit class in the same Sub-fund will not be given a right by law to withdraw from or cancel the transaction.

7. **DEALING CHARGES**

7.1 **Preliminary Charge**

The Manager may impose a charge on the purchase of Units in each class. The current preliminary charge is calculated as a percentage of the amount invested by a potential Unitholder is set out in Appendix I. The Manager may waive or discount the preliminary charge at its discretion.

The preliminary charge (which is deducted from subscription monies) is payable by the Unitholder to the Manager.

The current initial charge of a class may only be increased in accordance with the Regulations.

7.2 **Redemption Charge**

The Manager may make a charge on the redemption of Units in each class. At present, no redemption charge is levied.

The Manager may only introduce a redemption charge in accordance with the Regulations. Also, if such a charge was introduced, it would not apply to Units issued before the date of the introduction (i.e., those not previously subject to a redemption charge).

8. **TRANSFERS**

Unitholders are entitled to transfer their Units to another person or body. All transfers must be in writing in the form of an instrument of transfer approved by the Manager for this purpose. Completed instruments of transfer must be returned to the Manager in order for the transfer to be registered by the Manager. The Manager may refuse to register a transfer unless any provision for SDRT due has been paid.

9. **RESTRICTIONS AND COMPULSORY TRANSFER AND REDEMPTION**

The Manager may from time to time impose such restrictions as it may think necessary for the purpose of ensuring that no Units are acquired or held by any person in breach of the law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory or which would result in the Trust incurring any liability to taxation which the Trust is not able to recoup itself or suffering any other adverse consequence. In this connection, the Manager may, inter alia, reject in its discretion any application for the purchase, redemption, transfer or switching of Units.

If it comes to the notice of the Manager that any Units (“affected Units”):

- (a) are owned directly or beneficially in breach of any law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory; or
- (b) would result in the Trust incurring any liability to taxation which the Trust would not be able to recoup itself or suffering any other adverse consequence (including a requirement to register under any securities or investment or similar laws or governmental regulation of any country or territory); or

- (c) are held in any manner by virtue of which the Unitholder or Unitholders in question is/are not qualified to hold such Units or if it reasonably believes this to be the case;

the Manager may give notice to the Unitholder(s) of the affected Units requiring the transfer of such Units to a person who is qualified or entitled to own them or that a request in writing be given for the redemption of such Units in accordance with the COLL Sourcebook. If any Unitholder upon whom such a notice is served does not within 30 days after the date of such notice transfer his affected Units to a person qualified to own them or submit a written request for their redemption to the Manager or establish to the satisfaction of the Manager (whose judgement is final and binding) that he or the beneficial owner is qualified and entitled to own the affected Units, he shall be deemed upon the expiry of that 30 day period to have given a request in writing for the redemption or cancellation (at the discretion of the Manager) of all the affected Units.

A Unitholder who becomes aware that he is holding or owns affected Units shall immediately, unless he has already received a notice as set out above, either transfer all his affected Units to a person qualified to own them or submit a request in writing to the Manager for the redemption of all his affected Units.

Where a request in writing is given or deemed to be given for the redemption of affected Units, such redemption will (if affected) be affected in the same manner as provided for in the COLL Sourcebook.

The SVS Church House Esk Global Equity Fund has been registered as a Registered Deemed Compliant Financial Institution with the Inland Revenue Service of the United States of America as required under the Foreign Account Tax Compliant Act (FATCA) of the United States of America and the Intergovernmental Agreement signed between the governments of the United Kingdom and the United States of America. The SVS Church House Esk Global Equity Fund will comply with all the requirements of FATCA including the reporting requirements relating to US account holders. Institutional Unitholders may be required to provide a Global Intermediary Identification Number (GIIN). The Manager reserves the right to invoke the provisions in section [9] Restrictions and Compulsory Transfer and Redemption where it has not received information requested from a Unitholder within a reasonable period of time or it otherwise has reasonable cause to believe that continued investment by the Unitholder would breach the requirements of FATCA

The Global Intermediary Identification Number for the Trust is available on request.

10. **ISSUE OF UNITS IN EXCHANGE FOR IN SPECIE ASSETS**

The Manager may arrange for the Trust to issue Units in exchange for assets other than cash, but will only do so where the Trustee has taken reasonable care to determine that the Trust's acquisition of those assets in exchange for the Units concerned is not likely to result in any material prejudice to the interests of Unitholders.

The Manager will ensure that the beneficial interest in the assets is transferred to the Trust with effect from the issue of the Units.

The Manager will not issue Units in exchange for assets the holding of which would be inconsistent with the investment objective or policy of the Trust.

11. **IN SPECIE REDEMPTIONS**

If a Unitholder requests the redemption of Units the Manager may, where it considers the deal to be substantial in relation to the total size of the Trust or in some way detrimental to the Trust, arrange, having given prior notice in writing to the Unitholder, that, in place of payment for the Units in cash, the Trust transfers property or, if required by the Unitholder, the net proceeds of sale of the relevant property, to the Unitholder. Before the redemption proceeds of the Units become payable, the Manager must give written notice to the Unitholder that the relevant property or the proceeds of sale of the relevant property will be transferred to that Unitholder so that the Unitholder can require the net proceeds of redemption rather than the relevant property if he so desires.

For this purpose, the Manager may consider a deal to be substantial if the relevant Units constitute 5% (or a lesser or higher percentage if considered appropriate) of those in issue.

The Manager will select the property to be transferred or sold in consultation with the Trustee. They must ensure that the selection is made with a view to achieving no more advantage or disadvantage to the Unitholder requesting the redemption than to the continuing Unitholders.

12. **SUSPENSION OF DEALINGS IN THE TRUST**

The Manager may, with the prior agreement of the Trustee, and must without delay if the Trustee so requires temporarily suspend the issue, cancellation, sale and redemption of Units in the Trust where due to exceptional circumstances it is in the interests of all the Unitholders in the Trust.

The Manager and the Trustee must ensure that the suspension is only allowed to continue for as long as is justified having regard to the interests of Unitholders.

The Manager or the Trustee (as appropriate) will immediately inform the FCA of the suspension and the reasons for it and will follow this up as soon as practicable with written confirmation of the suspension and the reasons for it to the FCA and the regulator in each EEA state where the Trust is offered for sale.

The Manager will notify Unitholders as soon as is practicable after the commencement of the suspension, including details of the exceptional circumstances which have led to the suspension, in a clear, fair and not misleading way and giving Unitholders details of how to find further information about the suspension.

Where such suspension takes place, the Manager will publish details on its website or other general means, sufficient details to keep Unitholders appropriately informed about the suspension, including, if known, its possible duration.

During the suspension none of the obligations in COLL 6.2 (Dealing) will apply but the Manager will comply with as much of COLL 6.3 (Valuation and Pricing) during the period of suspension as is practicable in light of the suspension.

Suspension will cease as soon as practicable after the exceptional circumstances leading to the suspension have ceased but the Manager and the Trustee will formally review the suspension at least every 28 days and will inform the FCA of the review and any change to the information given to Unitholders.

The Manager may agree during the suspension to deal in Units in which case all deals accepted during and outstanding prior to the suspension will be undertaken at a price calculated at the first Valuation Point after the restart of dealings in Units.

13. **LARGE DEALS**

Any purchase or redemption of Units with a value equal to or in excess of £15,000 will amount to a “large deal”. For large deals (subject to the Regulations), the Manager may sell Units at more than, or redeem Units at less than, the published price (see paragraph 15.2 below).

14. **GOVERNING LAW**

All deals in Units are governed by the law of England and Wales.

15. **VALUATION OF THE TRUST**

15.1 **General**

The Trust will be valued in accordance with the provisions set out in Appendix III. The value per Unit in the Trust is currently calculated at 12 noon (London time) (this being the Valuation Point) on each Dealing Day.

15.2 **Calculation of the Value**

Valuations of the Trust will take place on each Dealing Day at the Valuation Point for the purposes of determining prices of which Units may be bought or sold to the Manager being calculated on an offer basis (for the purposes of calculating the issue price of a Unit) or a bid basis (for the purposes of calculating the cancellation price of a Unit) respectively. The price at which the Manager sells Units (the offer price), may not exceed the issue price of Units plus the Manager’s initial charge. The price at which the Manager redeems Units (the bid price) will not be less than the cancellation price (less any redemption charge and any SDRT provision). The bid price will not exceed the relevant issue price.

Large deals (see paragraph 13) may be carried out at a higher offer price or a lower bid price than those published, provided these prices do not exceed the relevant maximum and minimum parameters set out in the paragraph above.

The Manager may at any time during a business day carry out an additional valuation if it considers it desirable to do so. The Manager shall inform the Trustee of any decision to carry out any such additional valuation. Valuations may be carried out for affecting a scheme of amalgamation or reconstruction which does not create a Valuation Point for the purposes of dealings. Where permitted and subject to the Regulations, the Manager may, in certain circumstances (for example where a significant event has occurred since the closure of a market) substitute a price with a more appropriate price which in its opinion reflects a fair and reasonable price for that investment.

For the purposes of calculating the Manager’s and Trustee’s periodic charges the Scheme Property is valued on a mid-market basis, for the purposes of calculating the investment limits the Scheme Property is valued on a bid basis.

The Manager will, upon completion of each valuation, notify the Trustee of the issue price, the cancellation price, the maximum offer price and the minimum bid price of Units, of each class.

A request for dealing in Units must be received by the Valuation Point on a particular Dealing Day in order to be processed on that Dealing Day. A dealing request received after this time will be held over and processed on the next Dealing Day, using the value per Unit calculated as at the Valuation Point on that next Dealing Day.

15.3 **Price Per Unit in Each Class**

The price per Unit at which Units are issued or cancelled is calculated by taking the proportion, attributable to the Units of the class in question, of the value on the issue basis (when calculating the issue price per Unit) or the cancellation basis (when calculating the cancellation price per Unit) of the Scheme Property by reference to the most recent valuation, computing the number of Units of the relevant class in issue immediately before that valuation, dividing the total by that number of Units. Any initial charge or redemption charge, (or SDRT on a specific deal, if applicable) is payable in addition to the price or deducted from the proceeds and is taken from the gross subscription or redemption monies.

15.4 **Pricing Basis**

The Manager deals on a forward pricing basis. A forward price is the price calculated at the next Valuation Point after the purchase or redemption is deemed to be accepted by the Manager. Units in the Trust are dual priced.

15.5 **Publication of Prices**

Unitholders can obtain the price of their Units by calling 0141 222 1151 or going to www.fundlistings.com.

16. **RISK FACTORS**

16.1 **General Risks**

The price of Units of the Trust and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Trust will actually be achieved.

The following statements are intended to summarise some of the risks, but are not exhaustive, nor do they offer advice on the suitability of investments.

16.2 **Equities Risk**

Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events. Currency exchange rate movements will also cause changes in value when the currency of the investment is other than sterling.

16.3 **Warrants Risk**

Where investments are in warrants, the price per Unit of the Trust may fluctuate more than if the Trust was invested in the underlying securities because of the greater volatility of the warrant price.

16.4 **Bonds and Debt Instruments (Including High Yielding Securities) Risk**

Where investments are in bonds or other debt instruments, the value of those investments will depend on market interest rates, the credit quality of the issuer and liquidity considerations. Investments in high yielding debt instruments where the level of income may be relatively high (compared to investment grade debt instruments); however the risk of depreciation and realisation of capital losses on such debt instruments held will be significantly higher than on lower yielding debt instruments.

16.5 Lower Rated/Unrated Securities Risk

The credit quality of debt instruments is often assessed by rating agencies. Medium and lower rated securities and unrated securities of comparable quality may be subject to wider fluctuations in yield, wider bid-offer spreads, greater liquidity premium and accentuated market expectations, and consequently greater fluctuations in market values, than higher rated securities. Changes in such ratings, or expectation of changes, will be likely to cause changes in yield and market values, at times significantly so.

16.6 Collective Investment Schemes Risk

The Trust may make investments in collective investment schemes. Such investments may involve risks not present in direct investments, including, for example, the possibility that an investee collective investment scheme may at any time have economic or business interests or goals which are not fully consistent with those of the Trust. Moreover, many alternative investment strategies give themselves significant discretion in valuing securities. There may be liquidity constraints and the extent to which an investee fund's securities are valued by independent sources are factors which could impact on the Trust's valuation.

16.7 Leveraged Companies Risk

Investments may be made in companies or collective investment schemes which borrow funds. Such companies or collective investment schemes may not be subject to any limitations on the amount of their borrowings, and the amount of borrowings that they may have outstanding at any time may be large in comparison to their capital.

16.8 Futures and Options Risk

The Trust may use, under certain conditions, options and futures on indices and interest rates, for the purposes of efficient portfolio management. Also, the Trust may hedge market and currency risks using futures, options and forward exchange contracts. Transactions in futures carry a high degree of risk. The amount of the initial margin is small relative to the value of the futures contract so that transactions are "leveraged" or "geared". A relatively small market movement will have a proportionately larger impact which may work for or against the investor. The placing of certain orders which are intended to limit losses to certain amounts may not be effective because market conditions make it impossible to execute such orders. Transactions in options also carry a high degree of risk. Selling ("writing") an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of that amount. The seller will also be exposed to the risk of the purchaser exercising the option and the seller will be obliged either to settle the option in cash or acquire or deliver the underlying interest. If the option is "covered" by the seller holding a corresponding position in the underlying interest or a future on another option, the risk may be reduced.

There is no guarantee that the Trust will achieve the objective for which it entered into a transaction in relation to Efficient Portfolio Management. This may result in losses for investors.

The Trust will be subject to the risk of the inability of any counterparty to perform its obligations. If a counterparty defaults the Trust may suffer losses as a result.

16.9 **Foreign Currency Risk**

The Trust may invest in securities denominated in a number of different currencies other than sterling in which the Trust is denominated. Changes in foreign currency exchange rates may adversely affect the value of a Fund's investments and the income thereon.

16.10 **Pricing and Valuations Risk**

For quoted investments a valuation price can be obtained from an exchange or similarly verifiable source. However, investment in unquoted and/or illiquid investments which are difficult to value may increase the risk of mispricing. Furthermore, the Trust will compute Net Asset Values when some markets are closed for holidays or other reasons. In these and similar cases a verifiable source of market prices will not be available and the Manager may invoke its Fair Value process which will determine a fair value price for the relevant investments; this Fair Value process involves assumptions and subjectivity.

16.11 **Emerging Countries and Developing Markets Risk**

The Trust may invest in emerging markets which are undergoing rapid growth and regulatory change. Emerging markets present additional risks to those normally encountered in developed securities markets. These risks may be political, social and economic in nature and may be complicated by inflationary pressures and currency depreciation. The accounting and financial reporting standards, practices and disclosure requirements in some of the countries in which investments may be made may differ from those experienced in more developed markets. Similarly, reliability of the trading and settlement systems in such markets and the liquidity of these markets may not be equal to those available in more developed markets and this could lead to delays in settlement or affect the price at which investments could be realised. Government influence or control of private companies in some countries may be significant and investments may be exposed to the risks of political change, political uncertainty or governmental action. Such assets could be expropriated, nationalised, confiscated or subjected to changes in legislation relating to foreign ownership. The value of investments in emerging markets may therefore be adversely affected by political and/or economic conditions, which would, in turn, adversely impact on the performance of the Trust and its Unit price.

16.12 **Smaller and Unquoted Companies Risk**

Significant investments may be made in smaller companies, in which there may be no established market for the shares, or the market may be highly illiquid. Because of this potential illiquidity investment in the Trust may not be appropriate for all investors, including those who are not in a position to take a long-term view of their investment. The Trust may also invest, directly and indirectly, in securities that are not listed or traded on any stock exchange. In such situations, the Trust may not be able to immediately sell such securities. The purchase price and subsequent valuation of these securities may reflect a discount, which could be significant, from the market price of comparable securities for which a liquid market exists.

16.13 **Risk to Capital**

This includes potential risk of erosion resulting from withdrawals or cancellations of Units and distributions in excess of investment returns.

16.14 **Liquidity Risk**

In normal market conditions a Fund's assets comprise mainly realisable investments which can be readily sold. A Trust's main liability is the redemption of any Units that investors wish to sell. In general the Trust manages its investments, including cash, such that it can meet its liabilities. Investments held may need to be sold if insufficient cash is available to finance such redemptions. If the size of the disposals are sufficiently large, or the market is illiquid, then there is a risk that either the investments might not be sold or the price at which they are sold may adversely affect the Net Asset Value of the Trust. If there were significant requests for redemption of Units in the Trust at a time when a large proportion of the Trust's assets was invested in illiquid investments, then the Trust's ability to fund those redemptions would be impaired and it might be necessary to suspend dealings in Units in the Trust.

16.15 **Credit Risk**

Investments may be adversely affected if any of the institutions with which money is deposited suffers insolvency or other financial difficulties (default). Credit risk also arises from the uncertainty about an issuer's ultimate repayment of principal and interest for bond or other debt instrument investments. The entire deposit or purchase price of the debt instrument is at risk of loss if there is no recovery after default. The risk of default is usually greatest with bonds and debt instruments that are classed as 'sub-investment' grade.

16.16 **Settlement Risk**

All security investments are transacted through brokers who have been approved by the investment manager as an acceptable counterparty. The list of approved brokers is reviewed regularly. There is a risk of loss if a counterparty fails to perform its financial or other obligations to the Trust, for example, the possibility that a counterparty may default, by failing to make payments due, or make payments in a timely manner. If settlement never occurs the loss incurred by the Trust will be the difference between the price of the original contract and the price of the replacement contract, or, in the case where the contract is not replaced the absolute value of the contract at the time it is voided. Furthermore, in some markets 'Delivery versus Payment' may not be possible in which case the absolute value of the contract is at risk if the Trust meets its settlement obligations but the counterparty fails before meeting its obligations.

16.17 **Custody Risk**

Assets of the Trust are kept by the custodian and investors are exposed to the risk of the custodian not being able to fully meet its obligation to reconstitute in a short time frame all of the assets of the Trust in the case of bankruptcy of the custodian. Securities of the Trust will normally be identified in the custodian's books as belonging to the Trust and segregated from other assets of the custodian which mitigates but does not exclude the risk of non restitution in case of bankruptcy. However, no such segregation applies to cash which increases the risk of non restitution in case of bankruptcy. The custodian does not keep all the assets of the Trust itself but uses a network of sub-custodians which are not part of the same group of companies as the custodian. Investors are exposed to the risk of bankruptcy of the sub-custodians in the same manner as they are to the risk of bankruptcy of the custodian.

The Trust may invest in markets where custodial and/or settlement systems are not fully developed. The assets of the Trust that are traded in such markets and which have been entrusted to such sub-custodians may be exposed to risk in circumstances where the custodian will have no liability.

16.18 **Tax Risk**

Tax laws, currently in place, may change in the future which could affect the value of the Trust's and therefore the Unitholders' investments. Refer to the section headed 'Taxation' in the prospectus for further details about the taxation of the Trust.

16.19 **Inflation Risk**

Unless the performance of your investment keeps up with or beats inflation, the real value of your investments will fall over time.

16.20 **Political and/or Environmental Risk**

The investee companies may operate in countries where the ownership rights may be uncertain and development of the resources themselves may be subject to disruption due to factors including civil disturbances, industrial action, interruption of power supplies, as well as adverse climatic conditions.

16.21 **Market Risk**

The risk that the entire market of an asset class will decline thus affecting the prices and the values of the assets.

17. **MANAGEMENT AND ADMINISTRATION**

17.1 **Regulatory Status**

The Manager, the Trustee and the Investment Manager are authorised and regulated by the Financial Conduct Authority of 25 The North Colonnade, Canary Wharf, London E14 5HS.

17.2 **The Manager**

General

The Manager is Smith & Williamson Fund Administration Limited which is a private company limited by shares incorporated in England and Wales on 30 July 1985 (Registered Company No. 1934644). The Manager trades as St Vincent St Fund Administration.

Registered Office:	25 Moorgate London EC2R 6AY
Share Capital:	It has a share capital of 50,000 issued and paid up.
Ultimate Holding Company:	Smith & Williamson Holdings Limited.

The Manager is responsible for managing and administering the Trust's affairs in compliance with the COLL Sourcebook. The Manager may delegate its management and administration functions, but not responsibility, to third parties, including associates subject to the rules in the COLL Sourcebook.

It has therefore delegated to the Investment Manager the function of managing and acting as the investment adviser for the investment and reinvestment of the assets of the Trust (as further explained in paragraph 17.4 below).

The Manager is also under no obligation to account to the Trustee, the Trust or the Unitholders for any profit it makes on the issue or re-issue or cancellation of Units which it has redeemed.

17.3 **The Trustee**

General

The Trustee of the Trust is BNY Mellon Trust & Depositary (UK) Limited, a private company limited by shares incorporated in England and Wales on 25 June 1998. Its ultimate holding company is The Bank of New York Mellon Corporation, a public company incorporated in the United States.

The registered office of the Trustee is at The Bank of New York Mellon Centre, 160 Queen Victoria Street, London EC4V 4LA and its principal place of business is at One Canada Square, London E14 5AL.

The principal business activity of the Trustee is acting as a trustee and depositary of collective investment schemes. The Trustee is authorised and regulated by the FCA.

The Trustee is responsible for the safekeeping of all the Scheme Property (other than tangible movable property) of the Trust and has a duty to take reasonable care to ensure that the Trust is managed in accordance with the Trust Deed and the provisions of the FCA Handbook relating to the pricing of, and dealing in, Units and relating to the income and the investment and borrowing powers of the Trust.

The Trustee has appointed The Bank of New York Mellon SA/NV, London Branch to act as custodian of the property of the Trust (the “Custodian”).

The Trustee is entitled to receive remuneration out of the Scheme Property for its services, as set out in paragraph 18.3 of this Prospectus. The Trustee (or its associates or any affected person) is under no obligation to account to the Manager, the Trust or the Unitholders for any profits or benefits it makes or receives that are made or derived from or in connection with the dealings of Units of the Trust, any transaction in Scheme Property or the supply of services to the Trust.

17.4 **The Investment Manager**

General

The Manager has appointed the Investment Manager, Church House Investments Limited, to provide investment management services to the Manager. The Investment Manager is authorised and regulated by the Financial Conduct Authority.

The Investment Manager’s registered office is at York House, 6 Coldharbour, Sherborne, Dorset, DT9 4JW.

The principal activity of the Investment Manager is the provision of investment management services.

The terms of the Investment Management Agreement between the Manager and the Investment Manager include the provision of discretionary investment management to attain the investment objectives, discretion to place purchase and sale orders with regulated dealers and on the exercise of voting rights relating to such investments and preparation of the Investment Manager's report half yearly for inclusion in the Manager's report for circulation to holders. Copies of the Investment Manager's execution policy and voting policy are available from the Manager on request. The agreement is terminable on receipt of written notice given by either party. The Manager has the right to terminate the Agreement with immediate effect in certain circumstances.

The Investment Manager is entitled to a fee paid by the Manager out of its remuneration received each month from the Trust, as explained below in paragraph 0.

Copies of the Investment Manager's execution policy and voting policy are available from the Manager on request.

The Investment Manager will not be considered as a broker fund adviser under the FCA Handbook in relation to the Trust.

17.5 The Registrar

General

The Manager is responsible for the Trust's register.

Register of Unitholders

The Register of Unitholders will be maintained by the Registrar at 206 St Vincent Street, Glasgow G2 5SG, and may be inspected at that address during normal business hours by any Unitholder or any Unitholder's duly authorised agent.

The plan register, where applicable, (being a record of persons who subscribe for Units through Individual Savings Accounts (ISAs)) can be inspected at the office of the Registrar.

17.6 The Auditors

The auditors of the Trust are KPMG Audit Plc, whose address is Saltire Court, 20 Castle Terrace, Edinburgh EH1 2EG.

17.7 Conflicts of Interest

The Manager, the Investment Manager and other companies within the Manager or Investment Manager's group may, from time to time, act as investment managers or advisers to other funds or sub-funds which follow similar investment objectives to those of the Trust. It is therefore possible that the Manager and/or the Investment Manager may in the course of their business have potential conflicts of interest with the Trust. Each of the Manager and the Investment Manager will, however, have regard in such event to its general obligations to act in the best interests of the Trust so far as practicable, having regard to its obligations to other clients, when undertaking any investment business where potential conflicts of interest may arise.

Transactions may be effected in which the Manager or the Investment Manager has, either directly or indirectly, an interest that may potentially involve a conflict of its obligation to the Trust. Where a conflict cannot be avoided, the Manager and Investment Manager will have regard to their fiduciary responsibilities to act in the best interests of the Trust and its investors. The Manager and Investment Manager will ensure that investors are treated fairly

and that such transactions are effected on terms which are not less favourable to the Trust than if the potential conflict had not existed.

Copies of the Manager's and the Investment Manager's conflicts of interest policies are available from the Manager on request.

The Trustee may act as the depositary of open-ended investment companies and as trustee or custodian of other collective investment schemes.

18. FEES AND EXPENSES

18.1 Ongoing

All costs, charges, fees or expenses, other than the charges made in connection with the subscription and redemption of Units (see paragraph 18.3) payable by a Unitholder or out of Scheme Property are set out in this section.

The Manager may, so far as the COLL Sourcebook allows, also pay out of the Scheme Property all relevant costs, charges, fees and expenses including the following:

- broker's commission, fiscal charges and other disbursements which are necessary to be incurred in effecting transactions for the The Trust and normally shown in contract notes, confirmation notes and difference accounts as appropriate;
- any costs incurred in modifying the Trust Deed or this Prospectus or the Key investor Information Document (KIID), including but without limitation: (i) costs incurred in respect of meetings of Unitholders convened for purposes which include modifying the Trust Deed or this Prospectus or the KIID; and (ii) external legal fees incurred in relation to any such modification;
- any costs incurred in respect of meetings of Unitholders convened on a requisition by Unitholders not including the Manager or an associate of the Manager;
- liabilities on unitisation, amalgamation or reconstruction;
- interest on permitted borrowings and charges incurred in effecting or terminating such borrowings or in negotiating or varying the terms of such borrowings;
- taxation and duties payable in respect of the Scheme Property, the Trust Deed or the issue of Units;
- the audit fees of the Auditors (including VAT) and any expenses of the Auditors;
- the periodic fees of the Financial Conduct Authority, together with any corresponding periodic fees of any regulatory authority in a country or territory outside the United Kingdom in which Units in the Trust are or may be marketed;
- fees in respect of the maintenance of the Register accruing and payable quarterly out of the Scheme Property.

The Manager is also entitled to be paid out of the Scheme Property any expenses, incurred by the Manager or its delegates of the kinds described above.

Expenses are allocated between capital and income in accordance with the Regulations, and as specified in Appendix 1. Where expenses are allocated to income but there is insufficient income at the end of the accounting period, part or all of these expenses will be allocated to capital in accordance with the Regulations. This will only be done with the approval of the Trustee. Where expenses are charges to capital, this may constrain capital growth

18.2 Charges Payable to the Manager

18.2.1 Annual Management Charge

In payment for carrying out its duties and responsibilities the Manager is entitled to take an annual fee out of the Trust as set out in Appendix I. The annual management charge accrues daily and is payable monthly in arrears on the last Business Day of each month. The fee is calculated by reference to the value of the Trust on the last Business Day of the preceding month. The current annual management charge for the Trust (expressed as a percentage per annum of the value of the Trust) is set out in Appendix I.

18.2.2 Registration Fees

The Manager is entitled to receive a fee out of the Scheme Property for providing registration services (including establishing and maintaining sub-registers where applicable), out of which the Manager will pay the fees of the Registrar. Such fee is a quarterly fee. The current fees payable to the Manager are as follows: £11.50 per annum per Unitholder with a minimum payment of £500 per annum for the Trust. A £11.50 charge per annum is also payable per holder on an ISA sub-register. All Registrar fees are subject to VAT.

18.2.3 Expenses

The Manager is also entitled to all reasonable, properly documented, out of pocket expenses incurred in the performance of its duties as set out above.

VAT is payable on the charges or expenses mentioned above, where appropriate.

If a class's expenses in any period exceed its income the Manager may take that excess from the capital property attributable to that Class.

The current annual fee payable to the Manager for a class may only be increased or a new type of remuneration introduced in accordance with the Regulations.

18.3 Trustee's Fees and Expenses

The Trustee is entitled to receive out of the Scheme Property by way of remuneration a periodic charge, which will be calculated and accrue daily and be paid monthly as soon as practicable after the end of each month, and certain additional charges and expenses. The rate of the Trustee's periodic charge in respect of the Trust will be such rate or rates as agreed from time to time between the Manager and the Trustee in accordance with the COLL Sourcebook. The current rate of the Trustee's periodic charge in respect of the Trust is:

Value of Trust	Fee
First £70 million	0.04%
Next £30 million	0.03%

Next £50 million	0.02%
Balance	0.01%

of the value of the Scheme Property subject to a minimum of £5,000 plus VAT, plus £2,000 plus VAT per annum for each second and subsequent investment manager appointed to the Trust.

In addition VAT on the amount of the periodic charge will be paid out of the Scheme Property.

In the event of the termination of the Trust, the Trustee shall continue to be entitled to a periodic charge for the period up to and including the day on which the final distribution in the termination of the Trust shall be made or, in the case of a termination following the passing of an extraordinary resolution approving a scheme of arrangement, up to and including the final day on which the Trustee is responsible for the safekeeping of the Scheme Property. Such periodic charge will be calculated, be subject to the same terms and accrue and be paid as described above, except that for the purpose of calculating the periodic charge in respect of any day falling after the day on which the termination of the Trust commences, the value of the Scheme Property shall be its value determined at the beginning of each such day.

In addition to the periodic fee referred to above, the Trustee shall also be entitled to be paid transaction and custody charges in relation to transaction handling and safe-keeping of the Scheme Property as follows:

Item	Range
Transaction Charges	Between £7.50 and £445.00 per transaction
Safe Custody Charges	Between 0.003% and 0.50% of the value of investments being held per annum

These charges vary from country to country depending on the markets and the type of transaction involved. Transaction charges accrue at the time the transactions are effected and are payable as soon as is reasonably practicable, and in any event not later than the last Business Day of the month when such charges arose or as otherwise agreed between the Trustee and the Manager. Custody charges accrue and are payable as agreed from time to time by the manager and the Trustee. In addition, charges may be applied for cash payments, currency conversion, corporate actions and other incidental expenses. Details are available on request.

In addition to the remuneration referred to above, the Trustee is entitled to receive reimbursement for expenses properly incurred by it in discharge of its duties or exercising any powers conferred upon it in relation to the Trust. Such expenses include, but are not restricted to:

- (i) delivery of stock to the Trustee or custodian;
 - (ii) custody of assets;
 - (iii) collection of income and capital;
 - (iv) submission of tax returns;
 - (v) handling of tax claims;
 - (vi) preparation of the Trustee's annual report;
 - (vii) such other duties as the Trustee is required by law to perform.
- VAT (if any) in connection with any of the above is payable in addition.

In each such case such expenses and disbursements will also be payable if incurred by any person (including the Manager or an associate or nominee of the Trustee or of the Manager) who has had the relevant duty delegated to it pursuant to the COLL Sourcebook by the Trustee.

18.4 Investment Manager's Fee

The Investment Manager's fees and expenses (plus VAT thereon) for providing investment management services will be paid by the Manager out of its remuneration.

19. UNITHOLDER MEETINGS AND VOTING RIGHTS

19.1 Class and Trust Meetings

The provisions below, unless the context otherwise requires, apply to class meetings as they apply to general meetings of the Trust, but by reference to Units of the class concerned and the Unitholders and value and prices of such Units.

19.2 Requisitions of Meetings

The Manager may requisition a general meeting at any time.

Unitholders may also requisition a general meeting of the Trust. A requisition by Unitholders must state the objects of the meeting, be dated, be signed by Unitholders who, at the date of the requisition, are registered as holding not less than one tenth in value of all Units then in issue and the requisition must be deposited at the office of the Trustee. The Manager must convene a general meeting no later than eight weeks after receipt of such requisition.

19.3 Notice and Quorum

Unitholders will receive at least 14 days' notice of a general meeting and are entitled to be counted in the quorum and vote at such meeting either in person or by proxy. The quorum for a meeting is two Unitholders, present in person or by proxy. The quorum for an adjourned meeting is one person entitled to be counted in a quorum. Notices of meetings and adjourned meetings will be sent to Unitholders at their registered addresses.

19.4 Voting Rights

At a general meeting, on a show of hands every Unitholder who (being an individual) is present in person or (being a corporation) is present by its representative properly authorised in that regard, has one vote.

On a poll vote, a Unitholder may vote either in person or by proxy. The voting rights attaching to each Unit are such proportion of the voting rights attached to all the Units in issue that the price of the Unit bears to the aggregate price of all the Units in issue at a reasonable date before the notice of meeting is sent out such date to be decided by the Manager.

A Unitholder entitled to more than one vote need not, if he votes, use all his votes or cast all the votes he uses in the same way.

In the case of joint Unitholders, the vote of the most senior Unitholder who votes, whether in person or by proxy, must be accepted to the exclusion of the votes of the other joint Unitholders. For this purpose seniority must be determined by the order in which the names stand in the Register.

Except where the COLL Sourcebook or the Trust Deed require an extraordinary resolution (which needs at least 75% of the votes cast at the meeting to be in favour if the resolution is to be passed) any resolution required by the COLL Sourcebook will be passed by a simple majority of the votes validly cast for and against the resolution.

The Manager may not be counted in the quorum for a meeting and neither the Manager nor any associate (as defined in the COLL Sourcebook) of the Manager is entitled to vote at any meeting of the Trust except in respect of Units which the Manager or associate holds on behalf of or jointly with a person who, if the registered Unitholder, would be entitled to vote and from whom the Manager or associate has received voting instructions.

Where all the Units in the Trust are registered to, or held by, the Manager or its associates and they are therefore prohibited from voting and a resolution (including an extraordinary resolution) is required to conduct business at a meeting, it shall not be necessary to convene such a meeting and a resolution may, with the prior written agreement of the Trustee, instead be passed with the written consent of Unitholders representing 50% or more, or for an extraordinary resolution 75% or more, of the Units in issue.

“Unitholders” in this context means Unitholders entered on the register at a time to be determined by the Manager and stated in the notice of the meeting which must not be more than 48 hours before the time fixed for the meeting.

19.5 **Variation of Class Rights**

The rights attached to a class may not be varied without the sanction of an extraordinary resolution passed at a meeting of Unitholders of that class.

20. **TAXATION**

20.1 **General**

The following summary is only intended as a general summary of United Kingdom ("UK") tax law and HM Revenue & Customs practice, as at the date of this Prospectus, applicable to the Trust and to individual and corporate investors who are the absolute beneficial owners of a holding in the Trust held as an investment. The summary's applicability will depend upon the particular circumstances of each investor (and it will not apply to persons, such as certain institutional investors, who are subject to a special tax regime). It should not be treated as legal or tax advice. Accordingly, if investors are in any doubt as to their taxation position, they should consult their professional adviser. Levels and bases of, and reliefs from, taxation are subject to change in the future.

The following is divided into sections relating to “Bond Trust” and “Equity Trust”. A “Bond Trust” is a Trust which invests more than 60% of its market value in “Qualifying Investments” (at all times in each accounting period). The term “Qualifying Investments” includes money placed at interest and securities that are not units, including but not limited to government and corporate debt securities and cash on deposit. The tax issues relating to the Trust and the investors within it are treated separately in this Section.

20.2 **Taxation of an Equity Trust**

Tax on Capital Gains

An Equity Trust is not subject to UK taxation on capital gains arising on the disposal of its investments. Should the Trust be considered to be trading in securities under the Taxation of Chargeable Gains Act 1992, and to the extent an investment is disposed in non distributor/reporting fund, any gains made will be treated as taxable income and not exempt gains.

Tax on Income

The Trust will be liable to corporation tax at a rate equal to the lower rate of income tax, currently 20%, on its income after relief for expenses (which include fees payable to the Manager and to the Trustee). Dividends and similar income distributions from UK resident companies are exempt from corporation tax. Dividends and similar income distributions from UK authorised unit trusts and UK ICVCs are generally exempt from corporation tax to the extent the underlying income derives from dividends.

Foreign dividends and similar income received after 01 July 2009 are generally treated as exempt for the purposes of UK corporation tax. This income may be subject to withholding tax in certain jurisdictions.

Dividend income received from certain countries including Germany, France, Portugal, Russia and Ukraine are likely to be elected to be treated as taxable income in the UK in order to obtain a beneficial rate of withholding tax in the source country. This is based on guidance provided to the investment fund industry by the Investment Management Association.

Profits from loan relationships are treated as taxable income, as for a Bond Trust.

Relief for Foreign Withholding Taxes

Prior to 1 July 2009, to the extent that a Trust receives income from investments in, foreign countries or from the countries listed above after 1 July 2009, it may be subject to foreign withholding or other taxation in those jurisdictions. To the extent it relates to taxable income, this foreign tax may be able to be treated as an expense for UK corporation tax purposes, or it may be treated, up to certain limits, as a credit against UK corporation tax.

20.3 **Taxation of a Bond Trust**

Taxation of Capital Gains

Bonds or loan relationships held are taxable as income (see below) and are not subject to capital gains tax. Capital gains, for example on investments in equities, (except insofar as treated as income gains – see below) accruing to a Bond Trust will be exempt from UK tax on chargeable gains.

Tax on Income

Bond Trusts will be liable to UK corporation tax at 20% on income, translated (where appropriate) into Sterling, from investments in debt, debt related securities and cash deposits less deductible expenses. Such income will be computed according to the generally accepted accounting practice relevant to the Trust.

The total of the above elements will be taxed under Loan Relationship rules. Any income received from UK equities will be taxed in the same way as for an Equity Trust, as noted above.

A Bond Trust would be expected to be entitled to make up distribution accounts in such a way that the income distribution (including accumulations of income, which are deemed to be paid and reinvested as capital) to Unitholders is treated as if it were interest for UK tax purposes. If so entitled, a Bond Trust intends that distributions will be made in this way.

The treatment of distributions as interest distributions for UK tax purposes is significant in two material respects:

- distributions made should be deductible for corporation tax purposes against UK taxable income; and
- UK income tax, currently at a rate of 20%, should be deducted from distributions made by the Bond Trust and accounted for by it to HM Revenue & Customs. However the obligation to deduct income tax from interest distributions does not apply in certain cases, notably where a non-resident beneficial owner of the Units makes a valid declaration (“NOR declaration”) to the Trust in advance of a distribution being made or the distribution is paid to certain categories of qualifying intermediary.

Schedule D Case III income, less gross interest distributions for UK corporation tax purposes, expenses (including Manager’s and Trustee’s fees) and non-UK withholding taxes, is subject to UK corporation tax at a rate equal to the lower rate of income tax (currently 20%). It is not expected that the corporation tax charge will be significant.

Stamp Duty Reserve Tax

On 30 March 2014, SDRT ceased to be chargeable on dealings in units of authorised unit trusts. As such, the provisions relating to SDRT no longer apply. However, investors should note that should SDRT or a similar tax relating to dealings in units of authorised unit trusts be reintroduced in the future, all such costs will be paid out of the Trust’s Scheme Property and charged to capital.

However it should be noted that in the unlikely event of either of the below occurring within the Trust SDRT may still be triggered and where applicable be charged to the investor.

- Third party transfer of units
- Non-pro rata in specie redemptions

20.4 The Unitholder – Equity Trusts

Income Distributions

Accumulations and distributions of income (hereinafter ‘distributions’) comprise income for UK tax purposes. Except for Unitholders within the charge to corporation tax (as explained below), dividend distributions to UK resident Unitholders carry a tax credit equivalent to 10% of the aggregate of the distribution and the tax credit (i.e. one-ninth of the amount distributed/accumulated).

UK resident individuals and (the Trustee of) certain trusts liable to UK income tax will be taxable on the sum of their distributions and associated tax credits but will be entitled to set the tax credits against their UK income tax liability. Associated tax credits will satisfy the liability to income tax of basic rate taxpayers. Higher rate taxpayers who are individuals will have additional tax to pay, the distributions and associated tax credits being taxed at a special rate of 32.5% with the offset of a 10% tax credit. If the total income of a Unitholder who is an individual is less than his/her personal allowances, or if the Unitholder is a non taxpayer, the associated tax credits applicable to dividend distributions cannot be repaid. Dividend tax credits in excess of the individual's tax liability are not repaid.

From 6 April 2013, Additional Rate Taxpayers ("ART") are required to pay tax at 37.5% on dividend income exceeding £150,000 will be subject to additional rate tax of 45%.

Individuals with a net adjusted income of £100,000 will also have their personal allowances reduced £1 for every £2 on the income above this income limit. The personal allowance will be reduced to nil from an income level approximately £115,000. These limits may vary in the future.

Distributions to Unitholders within the charge to corporation tax are deemed to comprise two elements:

- where an Equity Trust's gross income is not wholly derived from franked investment income, part of any distribution will be deemed to be reclassified as an annual payment received by such Unitholders after deduction of income tax at the lower rate, currently 20% ("deemed tax deducted"). Such Unitholders will be subject to corporation tax on the grossed-up amount of the annual payments but will be entitled to the repayable deemed tax deducted. This repayment is, however, restricted to the lower of the deemed tax deducted and the Unitholder's share of the Equity Trust's corporation tax liability (after double tax relief on overseas income) for the period; and
- the remainder, which comprises franked investment income after grossing up the net distribution for the 10% tax credit. Such franked investment income, as it is known, is exempt from UK corporation tax.

Details of the proportions of distributions comprising franked investment income and annual payments will be shown on the tax voucher of the Equity Trust concerned.

These rules do not apply or are modified in relation to life insurance companies, in particular those with pensions and ISA business, life reinsurance business or overseas life assurance business.

Capital Gains

Unitholders who are resident or ordinarily resident in the UK may be liable to UK taxation on capital gains arising from the sale or other disposal, including redemption, of Units. Individuals and certain funds generally compute their gains by deducting from the net sale proceeds the capital gains base cost in respect of Units. The resulting gains will be taxable at the capital gains tax rate, and may be reduced by capital losses brought forward from previous tax years or losses in the year, and by annual exemptions. Exempt Unitholders, which include UK charities, UK approved pension funds, ISAs (and their individual investors), would not normally be expected to be liable to capital gains tax on their disposal of Units.

Unitholders within the charge to corporation tax are taxed on the capital gain made computed on the basis of the rules described above. They are, however, entitled to indexation allowance on the basic cost to the date of disposal. In certain cases, the “loan relationships” provisions mentioned below in relation to Bond Trusts could apply.

Special rules apply to life insurance companies who beneficially own Units.

Inheritance Tax

A gift by a Unitholder of his Unitholding in a Trust or the death of a Unitholder may give rise to a liability to inheritance tax, except where the Unitholder is neither domiciled in the UK, nor deemed to be domiciled there under special rules relating to long residence or previous domicile in the UK. For these purposes, a transfer of a Unitholding at less than the full market value may be treated as a gift.

20.5 **The Unitholder – Bond Trust**

Income Distributions: Interest Distributions

Distributions comprise income for UK tax purposes. Unitholders will be taxable on the gross amount distributed. Except in the case of an exemption granted from the obligation to deduct income tax (for instance, where a valid non-resident investors' declaration has been made or the distribution is paid to certain categories of qualifying intermediary), the amount actually received will be net of tax at the lower rate, currently 20%, and so the amount to be taxed on the recipient is at present equal to the amount received plus a quarter.

Unitholders will be treated as already having paid 20% income tax on this income, and individuals liable to lower or basic rate tax will have no further tax to pay. Higher rate taxpayers will have an additional liability of 20% of the grossed up amount, but those with no liability at all or who are only liable at the starting rate for savings may be able to claim a refund. If this starting rate is used by employment income then the refund for starting rate for savings is not available. Additional Rate Taxpayers will have an additional liability of 25% of the grossed up amount.

Corporate Unitholders will be able to set the income tax deducted against tax payments due to the Inland Revenue or claim repayment where there are none.

Non UK resident Unitholders, on completing the appropriate declarations, may be entitled to receive distributions gross of tax. Exempt Unitholders, which include UK charities, UK approved pension funds, ISAs, should be able to recover the tax deducted from the Inland Revenue.

Income Distributions: Non Interest Distributions

These will be taxed in the same way as noted above for an Equity Trust.

Capital Gains

Unitholders who are resident or ordinarily resident in the UK may be liable to UK taxation on capital gains arising from the sale or other disposal, including redemption, of Units. Individuals and certain funds compute their gains by deducting from the net sale proceeds the capital gains base cost in respect of Units and will be taxable at the capital gains tax rate. The gains may be reduced by capital losses brought forward from previous tax years or losses in the year, and by annual exemptions. Exempt Unitholders, which include UK charities, UK approved pension funds, ISAs, would not normally be expected to be liable to capital gains tax on the disposal of Units.

In respect of Unitholders subject to corporation tax holdings in a Bond Sub fund will be treated as holdings of loan relationships. Gains will be recognised using the mark to market method (which entails holdings being valued at the end of each accounting period and unrealised gains being recognised/taxed and unrealised losses being recognised/relieved). No indexation allowance or taper relief is available.

Special rules apply to life insurance companies who beneficially own Units.

Inheritance Tax

A gift by a Unitholder of his Unitholding in the Trust or the death of a Unitholder may give rise to a liability to inheritance tax, except where the Unitholder is neither domiciled in the UK, nor deemed to be domiciled there under special rules relating to long residence or previous domicile in the UK. For these purposes, a transfer of a Unitholding at less than the full market value may be treated as a gift.

EU Savings Directive

The EU Council Directive 2003/48/EC on taxation of savings income (the “Directive”) came into force on 1 July 2005. Member States of the European Union (“Member States”) are required to provide tax authorities of other Member States details of payments of interest and other similar income (which in the case of a collective investment fund may include income arising as a result of the sale and redemption of the Trust’s Units) paid by a person who is a “paying agent” for the purposes of the Directive to an individual (or certain “residual entities”) resident for the purposes of the Directive in another Member State. However, Austria, Belgium and Luxembourg will instead impose a system of withholding tax for a transitional period unless during such a period they elect otherwise.

21. INCOME EQUALISATION

21.1 Income equalisation, as explained below, may apply in relation to the Trust.

21.2 Grouping for equalisation is permitted by the Trust Deed. Equalisation is a capital sum paid on the distribution date to Unitholders who have purchased Units since the record date for the previous distribution in respect of accrued income for which they have paid on the acquisition of Units. Unit purchased during an accounting period (“Group 2 Units”) contain in their purchase price an amount called equalisation which represents a proportion of the net income of the Trust already accrued up to the date of purchase. This is refunded to holders of Group 2 Units as part of their first distribution but for tax purposes is treated as a return of capital. Equalisation payments, being capital, are not liable for income tax but must be deducted from the cost of Units for capital gains tax purposes.

21.3 The amount of income equalisation is either (i) the actual amount of income included in the issue price of that Unit; or (ii) is calculated by dividing the aggregate of the amounts included in the price of the Unit issued or sold to Unitholders in an annual or interim accounting period by the number of those Units and applying the resultant average to each of the Units in question.

21.4 The Manager currently uses the method outlined in (ii) in paragraph 21.3 to apply income equalisation.

22. WINDING UP OF THE TRUST

22.1 The Trust will not be wound up except in accordance with the COLL Sourcebook.

22.2 The Trustee shall proceed to wind-up the Trust:

if the order declaring the Trust to be an authorised unit trust scheme is revoked; or

if the Manager or the Trustee requests the FCA to revoke the order declaring the Trust to be an authorised unit trust scheme and the FCA has agreed (provided no material change in any relevant factor occurs) that on the winding-up of the Trust, the FCA will accede to that request; or

the expiration of any period specified in the Trust Deed as the period at the end of which the Trust is to terminate; or

on the effective date of a duly approved scheme of arrangement which is to result in the relevant Trust being left with no property.

22.3 If any of the events set out above occur the rules in the COLL Sourcebook concerning Dealing (COLL 6.2), Valuation and Pricing (COLL 6.3) and Investment and Borrowing Powers (COLL 5), will cease to apply. The Trustee shall cease to issue and cancel Units and the Manager will stop redeeming and selling Units.

22.4 In the case of a scheme of arrangement referred to in paragraph 22.2 above, the Trustee shall wind up the Trust in accordance with the approved scheme of arrangement.

22.5 In any other case, the Trustee shall, as soon as practicable after the relevant Trust falls to be wound-up, realise the assets of the Trust and, after paying, or retaining adequate provision for, all liabilities properly payable and retaining provision for the costs of the winding-up, distribute the proceeds to the Unitholders and the Manager proportionately to their respective interest in the Trust.

22.6 Any unclaimed net proceeds or other cash (including unclaimed distribution payments) held by the Trustee after twelve months from the date the proceeds became payable, shall be paid by the Trustee into Court, although the Trustee will have the right to retain any expenses incurred in making that payment. On completion of the winding-up, the Trustee shall notify the FCA in writing of that fact and the Trustee or the Manager shall request the FCA to revoke the order of authorisation.

23. GENERAL INFORMATION

23.1 Accounting Periods

The annual accounting period of the Trust ends each year on 30 September (the accounting reference date) with an interim accounting period ending on 31 March.

The Manager may even out the payments of income within an accounting period by carrying forward income otherwise distributable with a view to augmenting amounts to be paid out at a later date.

23.2 Notice to Unitholders

All notices or other documents sent by the Manager to a Unitholder will be sent by normal post to the last address notified in writing to the Manager by the Unitholder.

23.3 Income Allocations

The Trust has interim and final income allocations. Income is allocated in respect of the income available at each accounting date.

In relation to income Units, distributions of income for the Trust are paid by BACS or telegraphic transfer directly into a Unitholder's bank account on or before the relevant income allocation date in each year as set out in Appendix I.

Where accumulation Units are issued, income will become part of the capital property of the Trust and will be reflected in the price of each such accumulation Unit as at the end of the relevant accounting period.

If a distribution made in relation to any income Units remains unclaimed for a period of six years after it has become due, it will be forfeited and will revert to the Trust.

The amount available for distribution in any accounting period is calculated by taking the aggregate of the income received or receivable for the account of the Trust in respect of that period, and deducting the charges and expenses of the Trust paid or payable out of income in respect of that accounting period. The Manager then makes such other adjustments as it considers appropriate (and after consulting the Trust's auditors as appropriate) in relation to taxation, income equalisation, income unlikely to be received within 12 months following the relevant income allocation date, income which should not be accounted for on an accrual basis because of lack of information as to how it accrues, transfers between the income and capital account and other matters. The Manager does not normally adjust distributions in order to smooth the amount of interim and final distributions within any particular accounting period.

Income will be distributed as a dividend payment where the Trust is deemed to be an Equity Trust or as an interest payment where the Trust is deemed to be a Bond Trust over the relevant accounting period. The treatment of income anticipated by the Manager is given in Appendix 1, although Unitholders are advised the treatment of income will depend on the composition of assets over the accounting period. Income can only be distributed as an interest payment if the Trust has held the minimum Qualifying Investments over the accounting period (see Taxation for further details). Details of the treatment of income for taxation purposes over an accounting period will be given in a tax voucher sent to all Unitholders when the income is allocated.

23.4 **Annual Reports**

The annual report of the Trust will be published and sent to Unitholders within four months from the end of each annual accounting period and the half yearly report will be published within two months of each interim accounting period. Short reports will be issued.

A long report containing the full accounts is available to any person free of charge on request.

23.5 **Documents of the Trust**

The following documents may be inspected free of charge during normal business hours on any business day at the offices of the Manager at 25 Moorgate, London EC2R 6AY:

- the Prospectus
- the most recent annual and half yearly reports of the Trust; and
- the Trust Deed (and any amending documents).

Unitholders may obtain copies of the above documents from the Manager. The Manager may make a charge at its discretion for copies of documents (apart from the most recent versions of the Prospectus and annual and half yearly long reports of the Trust which are available free of charge to anyone who requests).

23.6 **Provision of Investment Advice**

All information concerning the Trust and about investing in Units of the Trust is available from the Manager's Transfer Agency Team at 206 St Vincent Street, Glasgow, G2 5SG. The Manager is not authorised to give investment advice and persons requiring such advice should consult a professional financial adviser. All applications for Units are made solely on the basis of the current prospectus of the Trust, and investors should ensure that they have the most up to date version.

23.7 **Telephone Recordings**

Please note that the Manager may record telephone calls for training and monitoring purposes and to confirm investors' instructions.

23.8 **Complaints**

Complaints concerning the operation or marketing of the Trust may be referred to the Compliance Officer of the Manager at 25 Moorgate, London EC2R 6AY or, if you subsequently wish to take your complaint further, direct to the Financial Ombudsman Service at South Quay Plaza, 183 Marsh Wall, London E14 9SR, telephone number 0845 080 1800. A copy of the Manager's complaints handling procedure is available on request.

23.9 **Risk Management**

The Manager will provide upon the request of a Unitholder further information relating to:

- the quantitative limits applying in the risk management of the Trust;
- the methods used in relation to -o-; and

- any recent development of the risk and yields of the main categories of investment.

APPENDIX I

TRUST DETAILS

Name:	SVS Church House Esk Global Equity Fund
Type of Scheme:	UCITS scheme
Investment Objective and Policy:	The objective of the Trust is to achieve medium to long-term capital growth from a portfolio of transferable securities. The income yield on the portfolio is likely to be low. The portfolio will comprise of direct equity investments and listed investment companies. Investments in other collective investment schemes, fixed interest securities, including index-linked and convertible issues and preference shares may also be included from time to time. The portfolio will be diversified. It is expected that investments will be listed in London but the outlook is international so investments may also be undertaken on recognized exchanges overseas. There are no specific geographic limitations imposed.
Final accounting date:	30 September
Interim accounting date:	31 March
Income distribution dates:	30 November (final) and 31 May (interim)
Units Classes and type of Units:	A Units Income and Accumulation B Units Income and Accumulation**
Ongoing charges figure:	A Units – 1.30% B Units – 0.93% (estimated)
Initial charge:	5.5%
Redemption charge:	Nil
Switching charge:	Nil
Annual Management Charge:	A Units 1.25% B Units** 0.875%
Charges taken from Income:	All charges other than those relating directly to the purchase and sale of investments are taken from income.
Income to be distributed as a dividend or interest?	The Trust may distribute income in the form of a dividend or interest depending on the composition of the assets held over the accounting period.

Investment minima:*	A Units	B Units**
Lump sum	£50,000	£100,000
Holding	£50,000	£100,000
Top-up	£25,000	£100,000
Redemption	N/A	N/A
	provided minimum holding maintained	provided minimum holding maintained

Past performance: Past performance information is set out in Appendix VI

* The Manager may waive the minimum levels at its discretion.

**** B Units are only available to persons who distribute such Units (or whom the Manager believes intend to do so) and/or who have entered into a written agreement with the Manager relating to the conditions for investment in such units.**

APPENDIX II

ELIGIBLE SECURITIES MARKETS AND ELIGIBLE DERIVATIVES MARKETS

The Trust may deal through securities and derivatives markets which are regulated markets (as defined in the glossary to the FCA Handbook) or markets established in an EEA/EU State which are regulated, operate regularly and are open to the public (excluding Cyprus and Slovenia).

The Trust may also deal through the securities markets and derivatives markets indicated below

Eligible Securities Markets

United States of America	New York Stock Exchange NASDAQ NYSE MKT LLC
Australia	Australian Securities Exchange
Canada	Toronto Stock Exchange
Hong Kong	Hong Kong Exchanges and Clearing Company
Japan	Tokyo Stock Exchange
Korea	Korea Exchange
Malaysia	Bursa Malaysia
Singapore	Singapore Exchange
South Africa	JSE Limited
Switzerland	SIX Swiss Exchange
Taiwan	Taiwan Stock Exchange
United Kingdom	AIM

Eligible Derivatives Markets

NYSE LIFFE

APPENDIX III

VALUATION AND PRICING

The value of the property of the Scheme shall be the value of its assets less the value of its liabilities determined in accordance with the following provisions.

1. All the property the Scheme (including receivables) is to be included, subject to the following provisions.
2. The valuation of the property of the Scheme shall consist of two parts, one on an issue basis and one on a cancellation basis calculated in accordance with the following provisions.
 - 2.1 The valuation of property for that part of the valuation which is on an issue basis is as follows:
 - 2.1.1 Property which is not cash (or other assets dealt with in paragraphs 3 and 4 below) shall be valued as follows and the prices used shall (subject as follows) be the most recent prices which it is practicable to obtain:
 - 2.1.1.1 units or shares in a collective investment scheme:
 - (a) if a single price for buying and selling units or shares is quoted, at that price (plus any dealing costs, which means fiscal charges, commission or other charges (including any preliminary charge) payable in the event of the Scheme carrying out the transaction in question, assuming that the commission and charges (other than fiscal charges) which would be payable by the Scheme are the least that could reasonably be expected to be paid in order to carry out the transaction and including any dilution levy or SDRT provision which would be added in the event of a purchase by the Scheme of the units in question (except that, where the Manager, or an associate of the Manager, is also the manager or authorised corporate director of the collective investment scheme whose units are held by the Scheme, dealing costs must not include a preliminary charge which would be payable in the event of a purchase by the Scheme of those units); or
 - (b) if separate buying and selling prices are quoted, at the maximum sale price, less any expected discount (plus any dealing costs, which means any fiscal charges, commission or other charges (but excluding any preliminary charge on sale of units in a collective investment scheme) payable in the event of the Scheme carrying out the transaction in question, assuming that the commission and charges (other than fiscal charges) which would be payable by the Scheme are the least that could reasonably be expected to be paid in order to carry out the transaction); but where the Manager, or an associate of the Manager, is also the manager or authorised corporate director of the collective investment scheme whose units are held by the Scheme, the issue price shall be taken instead of the maximum sale price; or
 - (c) if, in the opinion of the Manager, the price obtained is unreliable or no recent traded price is available or if no recent price exists, at a buyer's price which, in the opinion of the Manager, is fair and reasonable;

- 2.1.1.2 any other investment:
- (a) the best available market dealing offer price on the most appropriate market in a standard size (plus any dealing costs, which means any fiscal charges, commission or other charges payable in the event of the Scheme carrying out the transaction in question, assuming that the commission and charges (other than fiscal charges) which would be payable by the Scheme are the least that could reasonably be expected to be paid in order to carry out the transaction); or
 - (b) if, in the opinion of the Manager, the price obtained is unreliable or no recent traded price is available or if no recent price exists, at a buyer's price which, in the opinion of the Manager, is fair and reasonable.
- 2.1.1.3 if any other property, or no price exists under 2.1.1.1 or 2.1.1.2, the Manager's reasonable estimate of a buyer's price (plus any dealing costs, which means any fiscal charges, commission or other charges payable in the event of the Scheme carrying out the transaction in question, assuming that the commission and charges (other than fiscal charges) which would be payable by the Scheme are the least that could reasonably be expected to be paid in order to carry out the transaction but excluding any preliminary charge on sale of units in a collective investment scheme). The buyer's price is the consideration which would be paid by the buyer for an immediate transfer or assignment (or, in Scotland, assignation) to him at arm's length.

2.2 The valuation of property for that part of the valuation which is on a cancellation basis is as follows:

2.2.1 Property which is not cash (or other assets dealt with in paragraphs 3 and 4 below) shall be valued as follows and the prices used shall (subject as follows) be the most recent prices which it is practicable to obtain:

2.2.1.1 units or shares in a collective investment scheme:

- (a) if a single price for buying and selling units or shares is quoted, at that price (less any dealing costs, which means any fiscal charges, commission or other charges payable in the event of the Scheme carrying out the transaction in question, assuming that the commission and charges (other than fiscal charges) which would be payable by the Scheme are the least that could reasonably be expected to be paid in order to carry out the transaction, any redemption charge payable on sale of units in a collective investment scheme, taking account of any expected discount, any dilution levy or SDRT provision which would be deducted in the event of a sale by the Scheme of the units in question (except that, where the Manager, or an associate of the Manager, is also the manager or authorised corporate director of the collective investment scheme whose units are held by the Scheme, dealing costs must not include a redemption charge which would be payable in the event of a sale by the Scheme of those units)); or

- (b) if separate buying and selling prices are quoted, at the minimum redemption price (less any dealing costs, which means any fiscal charges, commission or other charges payable in the event of the Scheme carrying out the transaction in question, assuming that the commission and charges (other than fiscal charges) which would be payable by the Scheme are the least that could reasonably be expected to be paid in order to carry out the transaction and any charge payable on the sale of units in a collective investment scheme (except that, where the Manager, or an associate of the Manager, is also the manager or authorised corporate director of the collective investment scheme whose units are held by the Scheme, dealing costs must not include a redemption charge which would be payable in the event of a sale by the Scheme of those units), less any expected discount); but, if the property sold in one transaction would amount to a large deal (as defined in the Glossary), the cancellation price shall be taken instead of the minimum redemption price; or
- (c) if, in the opinion of the Manager, the price obtained is unreliable or no recent traded price is available or if no recent price exists, at a seller's price which, in the opinion of the Manager, is fair and reasonable;

2.2.1.2 any other investment:

- (a) the best available market dealing bid price on the most appropriate market in a standard size (less any dealing costs, which means any fiscal charges, commission or other charges payable in the event of the Scheme carrying out the transaction in question, assuming that the commission and charges (other than fiscal charges) which would be payable by the Scheme are the least that could reasonably be expected to be paid in order to carry out the transaction); or
- (b) if, in the opinion of the Manager, the price obtained is unreliable or no recent traded price is available or if no recent price exists, at a seller's price which, in the opinion of the Manager, is fair and reasonable;

2.2.1.3 if any other property, or no price exists under 2.2.1.1 or 2.2.1.2, the Manager's reasonable estimate of a seller's price (less any dealing costs, which means any fiscal charges, commission or other charges payable in the event of the Scheme carrying out the transaction in question, assuming that the commission and charges (other than fiscal charges) which would be payable by the Scheme are the least that could reasonably be expected to be paid in order to carry out the transaction, and including any redemption charge payable on sale of units in a collective investment scheme, taking account of any expected discount, any dilution levy or SDRT provision which would be deducted in the event of a sale by the Scheme of the units in question (except that, where the Manager, or an associate of the Manager, is also the manager or authorised corporate director of the collective investment scheme whose units are held by the Scheme, dealing costs must not include a redemption charge which would be payable in the event of a sale by the Scheme of those units)).

3. Property which is a derivative transaction shall be treated as follows:
 - (a) if a written option, (and the premium for writing the option has become part of the scheme property) deduct, for the calculation of the issue basis, the amount of the net valuation of premium (estimated on the basis of writing an option of the same series on the best terms then available on the most appropriate market on which such options are traded, but add, in the case of the calculation of the cancellation basis, dealing costs); but if it is an OTC derivative, the valuation methods in COLL 5.2.23R shall be used; or
 - (b) if an off-exchange future, include at the net value of closing out (in the case of the calculation of the issue basis, estimated on the basis of the amount of profit or loss receivable or incurable by the Scheme on closing out the contract and deducting minimum dealing costs in the case of profit and adding them in the case of loss; but if it is an OTC derivative, the valuation methods in COLL 5.2.23R shall be used); or
 - (c) if any other form of derivative transaction, include at the net value of margin on closing out (estimated on the basis of the amount of margin (whether receivable or payable by the Scheme on closing out the contract) on the best terms then available on the most appropriate market on which such contracts are traded and including minimum dealing costs so that the value is the figure as a negative sum); but if it is an OTC derivative, the valuation methods in COLL 5.2.23R shall be used.
4. Cash and amounts held in current and deposit accounts shall be valued at their nominal values.
5. In determining the value of the scheme property, all instructions given to the Trustee to issue or cancel Units shall be assumed (unless the contrary is shown) to have been carried out and any cash paid or received and all required consequential action required by the Regulations or the Trust Deed shall be assumed (unless the contrary is shown) to have been taken.
6. Subject to paragraphs 7 and 8 below, agreements for the unconditional sale or purchase of property which are in existence but uncompleted shall be assumed to have been completed and all consequential action required to have been taken. Such unconditional agreements need not be taken into account if made shortly before the valuation takes place and, in the opinion of the Manager, their omission shall not materially affect the final net asset amount.
7. Futures or contracts for differences which are not yet due to be performed and unexpired written or purchased options which have not been exercised shall not be included under paragraph 6.

8. All agreements are to be included under paragraph 6 which are, or ought reasonably to have been, known to the person valuing the property assuming that all other persons in the Manager's employment take all reasonable steps to inform it immediately of the making of any agreement.
9. Deduct an estimated amount for anticipated tax liabilities (on unrealised capital gains where the liabilities have accrued and are payable out of the property of the Scheme; on realised capital gains in respect of previously completed and current accounting periods; and on income where liabilities have accrued) including (as applicable and without limitation) capital gains tax, income tax, corporation tax, value added tax, stamp duty and stamp duty reserve tax.
10. Deduct an estimated amount for any liabilities payable out of the property of the Scheme and any tax thereon (treating periodic items as accruing from day to day).
11. Deduct the principal amount of any outstanding borrowings whenever payable and any accrued but unpaid interest on borrowings.
12. In the case of a margined contract, deduct any amount reasonably anticipated to be paid by way of variation margin.
13. Add an estimated amount for accrued claims for tax of whatever nature which may be recoverable.
14. Add any other credits due to be paid into the property of the Scheme.
15. In the case of a margined contract, add any amount reasonably anticipated to be received by way of variation margin.
16. Add a sum representing any interest or any income accrued due or deemed to have accrued but not received and any stamp duty reserve tax provision anticipated to be received.
17. The valuation is in the Scheme's base currency. To convert to the base currency the value of property which would otherwise be valued in another currency the Manager will either:
 - 17.1 select a rate of exchange which represents the average of the highest and lowest rates quoted at the relevant time for conversion of that currency into base currency on the market on which the manager would normally deal if it wished to make such a conversion;
or
 - 17.2 invite the Trustee to agree that it is in the interests of Unitholders to select a different rate, and, if the Trustee so agrees, use that other rate."

APPENDIX IV

INVESTMENT AND BORROWING POWERS OF THE TRUST

1. **General**

The Scheme Property will be invested with the aim of achieving the investment objective of the Trust but subject to the limits set out in the Trust's investment policy and the limits set out in Chapter 5 of the COLL Sourcebook ("COLL 5") and this Prospectus.

Normally, the Trust will be fully invested save for an amount to enable ready settlement of liabilities (including redemption of Units) and efficient management of the Fund both generally and in relation to its strategic objective. This amount will vary depending upon prevailing circumstances and although it would normally not exceed 10% of the total value of the Trust, there may be times when the Investment Manager considers stock markets around the world to be overpriced or that a period of instability exists which presents unusual risks. In such cases or during such periods, a higher level of liquidity may be maintained and, if considered prudent, the amount of cash or near cash instruments held would be increased. Unless market conditions were deemed unusually risky, the increased amount and period would not be expected to exceed 30% and six months respectively.

The Trust will not maintain an interest in any immovable property or tangible moveable property.

1.1 **Prudent spread of risk**

The Manager must ensure that, taking account of the investment objective and policy of the Trust, the Scheme Property aims to provide a prudent spread of risk.

1.2 **Cover**

1.2.1 Where the COLL Sourcebook allows a transaction to be entered into or an investment to be retained only (for example, investment in nil and partly paid securities and the general power to accept or underwrite) if possible obligations arising out of the investment transactions or out of the retention would not cause any breach of any limits in COLL 5, it must be assumed that the maximum possible liability of the Trust under any other of those rules has also to be provided for.

1.2.2 Where a rule in the COLL Sourcebook permits an investment transaction to be entered into or an investment to be retained only if that investment transaction, or the retention, or other similar transactions, are covered:

1.2.2.1 it must be assumed that in applying any of those rules, the Trust must also simultaneously satisfy any other obligation relating to cover; and

1.2.2.2 no element of cover must be used more than once.

1.3 Transferable Securities

- 1.3.1 A transferable security is an investment falling within article 76 (shares etc.), article 77 (instruments creating or acknowledging indebtedness), article 78 (government and public securities), article 79 (instruments giving entitlement to investments) and article 80 (certificates representing certain securities) of the Regulated Activities Order.
- 1.3.2 An investment is not a transferable security if the title to it cannot be transferred, or can be transferred only with the consent of a third party.
- 1.3.3 In applying paragraph 1.3.2 of this Appendix to an investment which is issued by a body corporate, and which is an investment falling within articles 76 (shares, etc.) or 77 (instruments creating or acknowledging indebtedness) of the Regulated Activities Order, the need for any consent on the part of the body corporate or any members or debenture holders of it may be ignored.
- 1.3.4 An investment is not a transferable security unless the liability of the holder of it to contribute to the debts of the issuer is limited to any amount for the time being unpaid by the holder of it in respect of the investment.
- 1.3.5 The Trust may invest in a transferable security only to the extent that the transferable security fulfils the following criteria:
- 1.3.5.1 the potential loss which the Trust may incur with respect to holding the transferable security is limited to the amount paid for it;
 - 1.3.5.2 its liquidity does not compromise the ability of the Manager to comply with its obligation to redeem Units at the request of any qualifying Unitholder under the FCA Handbook;
 - 1.3.5.3 reliable valuation is available for it as follows:
 - (a) in the case of a transferable security admitted to or dealt in on an eligible market, where there are accurate, reliable and regular prices which are either market prices or prices made available by valuation systems independent from issuers;
 - (b) in the case of a transferable security not admitted to or dealt in on an eligible market, where there is a valuation on a periodic basis which is derived from information from the issuer of the transferable security or from competent investment research;
 - 1.3.5.4 appropriate information is available for it as follows:
 - (a) in the case of a transferable security admitted to or dealt in on an eligible market, where there is regular, accurate and comprehensive information available to the market on the transferable security or, where relevant, on the portfolio of the transferable security;
 - (b) in the case of a transferable security not admitted to or dealt in on an eligible market, where there is regular and accurate information available to the Manager on the transferable security or, where relevant, on the portfolio of the transferable security;

- 1.3.5.5 it is negotiable; and
- 1.3.5.6 its risks are adequately captured by the risk management process of the Manager.
- 1.3.6 Unless there is information available to the Manager that would lead to a different determination, a transferable security which is admitted to or dealt in on an eligible market shall be presumed:
 - 1.3.6.1 not to compromise the ability of the Manager to comply with its obligation to redeem Units at the request of any qualifying Unitholder; and
 - 1.3.6.2 to be negotiable.
- 1.3.7 No more than 5% of the Scheme Property may be invested in warrants.

2. UCITS Schemes - General

Subject to the investment objective and policy of the Trust and the restrictions set out in this Prospectus, the Scheme Property must, except where otherwise provided in COLL 5, only consist of transferable securities.

3. Closed End Funds Constituting Transferable Securities

- 3.1 A unit or a share in a closed end fund shall be taken to be a transferable security for the purposes of investment by the Trust, provided it fulfils the criteria for transferable securities set out in paragraph 1.3.5 and either:
 - 3.1.1 where the closed end fund is constituted as an investment company or a unit trust:
 - 3.1.1.1 it is subject to corporate governance mechanisms applied to companies; and
 - 3.1.1.2 where another person carries out asset management activity on its behalf, that person is subject to national regulation for the purpose of investor protection; or
 - 3.1.2 where the closed end fund is constituted under the law of contract:
 - 3.1.2.1 it is subject to corporate governance mechanisms equivalent to those applied to companies; and
 - 3.1.2.2 it is managed by a person who is subject to national regulation for the purpose of investor protection.

4. Transferable Securities Linked to Other Assets

- 4.1 The Trust may invest in any other investment which shall be taken to be a transferable security for the purposes of investment by the Trust provided the investment:
 - 4.1.1 fulfils the criteria for transferable securities set out in 1.3.5 above; and
 - 4.1.2 is backed by or linked to the performance of other assets, which may differ from those in which the Trust can invest.

4.2 Where an investment in 4.1 contains an embedded derivative component, the requirements of this section with respect to derivatives and forwards will apply to that component.

5. **Transferable Securities Generally to be Admitted or Dealt in on an Eligible Market**

5.1 Transferable securities held within the Trust must be:

5.1.1 admitted to or dealt in on an eligible market as described in 6.3.1; or

5.1.2 dealt in on an eligible market as described in 6.3.2; or

5.1.3 admitted to or dealt in on an eligible market as described in 6.4; or

5.1.4 recently issued transferable securities provided that:

5.1.4.1 the terms of issue include an undertaking that application will be made to be admitted to an eligible market; and

5.1.4.2 such admission is secured within a year of issue.

5.2 However, the Trust may invest no more than 10% of the Scheme Property in transferable securities other than those referred to in 5.1.

6. **Eligible Markets Regime: Purpose**

6.1 To protect investors the markets on which investments of the Trust are dealt in or traded on should be of an adequate quality (“eligible”) at the time of acquisition of the investment and until it is sold.

6.2 Where a market ceases to be eligible, investments on that market cease to be approved securities. The 10% restriction on investing in non-approved securities applies and exceeding this limit because a market ceases to be eligible will generally be regarded as an inadvertent breach.

6.3 A market is eligible for the purposes of the rules if it is:

6.3.1 a regulated market as defined in the FCA Handbook; or

6.3.2 a market in an EEA State which is regulated, operates regularly and is open to the public.

6.4 A market not falling within paragraph 6.3 of this Appendix is eligible for the purposes of COLL 5 if:

6.4.1 the Manager, after consultation and notification with the Trustee, decides that market is appropriate for investment of, or dealing in, the Scheme Property;

6.4.2 the market is included in a list in the Prospectus; and

6.4.3 the Trustee has taken reasonable care to determine that:

6.4.3.1 adequate custody arrangements can be provided for the investment dealt in on that market; and

6.4.3.2 all reasonable steps have been taken by the Manager in deciding whether that market is eligible.

- 6.5 In paragraph 6.4.1, a market must not be considered appropriate unless it is regulated, operates regularly, is recognised, is open to the public, is adequately liquid and has adequate arrangements for unimpeded transmission of income and capital to or for the order of investors.
7. **Spread: General**
- 7.1 This rule on spread does not apply to government and public securities.
- 7.2 For the purposes of this requirement companies included in the same group for the purposes of consolidated accounts as defined in accordance with Directive 83/349/EEC or in the same group in accordance with international accounting standards are regarded as a single body.
- 7.3 With the exception of those instruments specified in paragraph 8 below, not more than 5% in value of the Scheme Property is to consist of transferable securities issued by any single body, except that the limit of 5% is raised to 10% in respect of up to 40% in value of the Scheme Property (covered bonds need not be taken into account for the purposes of applying the limit of 40%). For these purposes certificates representing certain securities are treated as equivalent to the underlying security.
- 7.4 The limit of 5% is raised to 25% in value of the Scheme Property in respect of covered bonds provided that when the Trust invests more than 5% in covered bonds issued by a single body, the total value of covered bonds held must not exceed 80% in value of the Scheme Property.
- 7.5 The exposure to any one counterparty in an OTC derivative transaction must not exceed 5% in value of the Scheme Property. This limit is raised to 10% where the counterparty is an Approved Bank.
- 7.6 The COLL Sourcebook provides that not more than 20% in value of the Scheme Property is to consist of the units of any one collective investment scheme.
- 7.7 Not more than 20% in value of the Scheme Property may consist of transferable securities issued by the same group.
- 7.8 The COLL Sourcebook provides that in applying the limits in COLL 5.2.11R(3), 7.3 and 7.5 and subject to 7.4, not more than 20% in value of the Scheme Property is to consist of any combination of two or more of the following (if applicable):
- 7.8.1 transferable securities (including covered bonds) or approved money market instruments issued by; or
 - 7.8.2 deposits made with; or
 - 7.8.3 exposures from OTC derivatives transactions made with;
- a single body.
- 7.9 For the purpose of calculating the limits in 7.5 and 7.8 of this paragraph, the exposure in respect of an OTC derivative may be reduced to the extent that collateral is held in respect of it if the collateral meets each of the following conditions:
- 7.9.1 it is marked-to-market on a daily basis and exceeds the value of the amount at risk;
 - 7.9.2 it is exposed only to negligible risks (e.g. government bonds of first credit rating or cash) and is liquid;

- 7.9.3 it is held by a third party custodian not related to the provider or is legally secured from the consequences of a failure of a related party; and
 - 7.9.4 can be fully enforced by the Trust at any time.
- 7.10 For the purposes of calculating the limits in 7.5 and 7.8 of this paragraph (Spread: general), OTC derivative positions with the same counterparty may be netted provided that the netting procedures:
- 7.10.1 comply with the conditions set out in Section 3 (Contractual netting (Contracts for novation and other netting agreements)) of Annex III to the Banking Consolidation Directive; and
 - 7.10.2 are based on legally binding agreements.
- 7.11 In applying this paragraph (Spread: general), all derivatives transactions are deemed to be free of counterparty risk if they are performed on an exchange where the clearing house meets each of the following conditions:
- 7.11.1 it is backed by an appropriate performance; and
 - 7.11.2 it is characterised by a daily mark-to-market valuation of the derivative positions and at least daily margining.

8. **Spread: Government and Public Securities**

- 8.1 The following section applies to government and public securities (“such securities”).
- 8.2 Where no more than 35% in value of the Scheme Property is invested in such securities issued by any one body, there is no limit on the amount which may be invested in such securities or in any one issue.
- 8.3 The Trust may invest more than 35% in value of the Scheme Property in such securities issued by any one body provided that:
- 8.3.1 the Manager has before any such investment is made consulted with the Trustee and as a result considers that the issuer of such securities is one which is appropriate in accordance with the investment objectives of the authorised fund;
 - 8.3.2 no more than 30% in value of the Scheme Property consists of such securities of any one issue;
 - 8.3.3 the Scheme Property includes such securities issued by that or another issuer, of at least six different issues;
 - 8.3.4 the disclosures required by the FCA have been made.
- 8.4 In giving effect to the foregoing object more than 35 % of the Scheme Property may be invested in Government and other public securities issued or guaranteed by the governments of United Kingdom, Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, The Netherlands, Portugal, Spain, Sweden, Australia, Canada, Japan, New Zealand, Norway, Switzerland or the United States of America.

8.5 Notwithstanding 7.1 and subject to 8.2 and 8.3 above, in applying the 20% limit in paragraph 7.8 with respect to a single body, government and public securities issued by that body shall be taken into account.

9. **Investment in Collective Investment Schemes**

9.1 No more than 10% of the value of the Scheme Property may be invested in units or shares in other collective investment schemes (“Second Scheme”) provided that Second Scheme satisfies all of the following conditions:

9.1.1 The Second Scheme must:

9.1.1.1 satisfy the conditions necessary for it to enjoy the rights conferred by the UCITS Directive; or

9.1.1.2 be recognised under the provisions of s.272 of the Financial Services and Markets Act 2000; or

9.1.1.3 be authorised as a non-UCITS retail scheme (provided the requirements of Article 50(1)(e) of the UCITS Directive are met); or

9.1.1.4 be authorised in another EEA State provided the requirements of Article 50(1)(e) of the UCITS Directive are met; or

9.1.1.5 be authorised by the competent authority of an OECD member country (other than another EEA State) which has:

(a) signed the IOSCO Multilateral Memorandum of Understanding; and

(b) approved the Second Scheme’s management company, rules and depositary/custody arrangements;

(provided the requirements of article 50(1)(e) of the UCITS Directive are met).

9.1.2 The Second Scheme has terms which prohibit more than 10% in value of the scheme property consisting of units or shares in collective investment schemes. Where the Second Scheme is an umbrella, the provisions in this paragraph 9.1.2 and paragraph 9.1.3 apply to each sub-fund as if it were a separate scheme.

9.1.3 Investment may only be made in other collective investment schemes managed by the Manager or an associate of the Manager if the Trust’s Prospectus clearly states that it may enter into such investments and the rules on double charging contained in the COLL Sourcebook are complied with.

9.2 The Trust may, subject to the limit set out in 9.1 above, invest in collective investment schemes managed or operated by, or whose authorised corporate director is, the Manager of the Trust or one of its associates.

10. **Investment in Nil and Partly Paid Securities**

10.1 A transferable security on which any sum is unpaid falls within a power of investment only if it is reasonably foreseeable that the amount of any existing and potential call for any sum unpaid could be paid by the Trust, at the time when payment is required, without contravening the rules in COLL 5.

11. **Derivatives: General**

11.1 **The Investment Manager may employ derivatives solely for the purposes of hedging in accordance with Efficient Portfolio Management.**

11.2 A transaction in derivatives or a forward transaction must not be effected for the Trust unless the transaction is of a kind specified in paragraph 13 (Permitted transactions (derivatives and forwards)) below, and the transaction is covered, as required by paragraph 23 (Cover for transactions in derivatives and forward transactions) of this Appendix.

11.3 Where the Trust invests in derivatives, the exposure to the underlying assets must not exceed the limits set out in the COLL Sourcebook in relation to COLL 5.2.11R (Spread: general) and COLL 5.2.12R (Spread: government and public securities) except for index based derivatives where the rules below apply.

11.4 Where a transferable security or approved money-market instrument embeds a derivative, this must be taken into account for the purposes of complying with this section.

11.5 A transferable security or an approved money-market instrument will embed a derivative if it contains a component which fulfils the following criteria:

11.5.1 by virtue of that component some or all of the cash flows that otherwise would be required by the transferable security or approved money-market instrument which functions as host contract can be modified according to a specified interest rate, financial instrument price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable, and therefore vary in a way similar to a stand-alone derivative;

11.5.2 its economic characteristics and risks are not closely related to the economic characteristics and risks of the host contract; and

11.5.3 it has a significant impact on the risk profile and pricing of the transferable security or approved money-market instrument.

11.6 A transferable security or an approved money-market instrument does not embed a derivative where it contains a component which is contractually transferable independently of the transferable security or the approved money-market instrument. That component shall be deemed to be a separate instrument.

11.7 Where the Trust invests in an index based derivative, provided the relevant index falls within paragraph 14 (Financial Indices underlying derivatives), the underlying constituents of the index do not have to be taken into account for the purposes of COLL 5.2.11R and COLL 5.2.12R.

12. **Efficient Portfolio Management**

12.1 The Trust may utilise the Scheme Property to enter into transactions for the purposes of Efficient Portfolio Management (“EPM”). Permitted EPM transactions (excluding stock lending arrangements) are transactions in derivatives e.g. to hedge against price or currency fluctuations, dealt with or traded on an eligible derivatives market; off-exchange options or contracts for differences; or synthetic futures in certain circumstances. The Manager must take reasonable care to ensure that the transaction is economically appropriate in that it is realised in a cost effective way and that it is entered into for the reduction of risk (whether in the price of investments, interest rates or exchange rates) or the reduction of cost or the generation of additional capital or income with a risk level which is consistent with the risk profile of the Trust and the risk diversification rules laid down in the COLL Sourcebook. The exposure must be fully “covered” by cash and/or other property sufficient to meet any obligation to pay or deliver that could arise.

12.2 Permitted transactions are those that the Trust reasonably regards as economically appropriate to EPM, that is:

12.2.1 Transactions undertaken to reduce risk or cost in terms of fluctuations in prices, interest rates or exchange rates where the Manager reasonably believes that the transaction will diminish a risk or cost of a kind or level which it is sensible to reduce; or

12.2.2 Transactions for the generation of additional capital growth or income for the Trust by taking advantage of gains which the Manager reasonably believes are certain to be made (or certain, barring events which are not reasonably foreseeable) as a result of:

12.2.2.1 pricing imperfections in the market as regards the property which the Trust holds or may hold; or

12.2.2.2 receiving a premium for the writing of a covered call option or a cash covered put option on the Scheme Property which the Trust is willing to buy or sell at the exercise price; or

12.2.2.3 stock lending arrangements (although these are not currently permitted by the Manager).

A permitted arrangement in this context may at any time be closed out.

12.3 Transactions may take the form of “derivatives transactions” (that is, transactions in options, futures or contracts for differences) or forward currency transactions. A derivatives transaction must either be in a derivative which is traded or dealt in on an eligible derivatives market (and effected in accordance with the rules of that market), or be an off-exchange derivative which complies with the relevant conditions set out in the COLL Sourcebook, or be a “synthetic future” (i.e. a composite derivative created out of two separate options). Forward currency transactions must be entered into with counterparties who satisfy the Regulations. A permitted transaction may at any time be closed out.

13. **Permitted Transactions (Derivatives and Forwards)**

13.1 A transaction in a derivative must be in an approved derivative; or be one which complies with paragraph 17 (OTC transactions in derivatives).

- 13.2 A transaction in a derivative must have the underlying consisting of any one or more of the following to which the Trust is dedicated:
- 13.2.1 transferable securities;
 - 13.2.2 approved money-market instruments permitted under COLL 5.2.8R(3)(a) to COLL 5.2.8R(3)(d);
 - 13.2.3 deposits permitted derivatives under this paragraph;
 - 13.2.4 collective investment scheme units or shares permitted under paragraph 9 (Investment in collective investment schemes);
 - 13.2.5 financial indices which satisfy the criteria set out in paragraph 14 (Financial indices underlying derivatives);
 - 13.2.6 interest rates;
 - 13.2.7 foreign exchange rates; and
 - 13.2.8 currencies.
- 13.3 A transaction in an approved derivative must be effected on or under the rules of an eligible derivatives market.
- 13.4 A transaction in a derivative must not cause the Trust to diverge from its investment objective as stated in the Trust Deed constituting the Trust and the most recently published version of this Prospectus.
- 13.5 A transaction in a derivative must not be entered into if the intended effect is to create the potential for an uncovered sale of one or more, transferable securities, approved money-market instruments, units in collective investment schemes, or derivatives, provided that a sale is not to be considered as uncovered if the conditions in paragraph 16.2 are satisfied.
- 13.6 Any forward transaction must be with an Eligible Institution or an Approved Bank.
- 13.7 A derivative includes an investment which fulfils the following criteria:
- 13.7.1 it allows transfer of the credit risk of the underlying independently from the other risks associated with that underlying;
 - 13.7.2 it does not result in the delivery or the transfer of assets other than those referred to in COLL 5.2.6AR, including cash;
 - 13.7.3 in the case of an OTC derivative, it complies with the requirements in paragraph 17; and
 - 13.7.4 its risks are adequately captured by the risk management process of the Manager and by its internal control mechanisms in the case of risk asymmetry of information between the Manager and the counterparty to the derivative resulting from the potential access of the counterparty to non-public information on persons whose assets are used as the underlying by that derivative.
- 13.8 The Trust may not undertake transactions in derivatives on commodities.

13.9 Counterparty risk exposure can be reduced by the Trust receiving collateral from the counterparty. Collateral will be managed in accordance with FCA Regulations and Guidelines issued from time to time by the European Securities and Markets Authority. A Collateral Management Policy will be implemented by the Manager before the Trust enters into any transactions which require it to hold collateral from a counterparty.

13.10 The use of derivatives or forwards for the purposes of Efficient Portfolio Management will not materially alter the risk profile of the Trust. The use of these techniques and instruments will only be employed where the Manager and the Investment Manager consider these to be in line with the best interests of the Trust.

14. **Financial Indices Underlying Derivatives**

14.1 The financial indices referred to in 13.2 are those which satisfy the following criteria:

14.1.1 the index is sufficiently diversified;

14.1.2 the index represents an adequate benchmark for the market to which it refers; and

14.1.3 the index is published in an appropriate manner.

14.2 A financial index is sufficiently diversified if:

14.2.1 it is composed in such a way that price movements or trading activities regarding one component do not unduly influence the performance of the whole index;

14.2.2 where it is composed of assets in which the Trust is permitted to invest, its composition is at least diversified in accordance with the requirements with respect to spread and concentration set out in this section; and

14.2.3 where it is composed of assets in which the Trust cannot invest, it is diversified in a way which is equivalent to the diversification achieved by the requirements with respect to spread and concentration set out in this section.

14.3 A financial index represents an adequate benchmark for the market to which it refers if:

14.3.1 it measures the performance of a representative group of underlyings in a relevant and appropriate way;

14.3.2 it is revised or rebalanced periodically to ensure that it continues to reflect the markets to which it refers, following criteria which are publicly available; and

14.3.3 the underlyings are sufficiently liquid, allowing users to replicate it if necessary.

14.4 A financial index is published in an appropriate manner if:

14.4.1 its publication process relies on sound procedures to collect prices, and calculate and subsequently publish the index value, including pricing procedures for components where a market price is not available; and

14.4.2 material information on matters such as index calculation, rebalancing methodologies, index changes or any operational difficulties in providing timely or accurate information is provided on a wide and timely basis.

14.5 Where the composition of underlyings of a transaction in a derivative does not satisfy the requirements for a financial index, the underlyings for that transaction shall where they satisfy the requirements with respect to other underlyings pursuant to 13.2, be regarded as a combination of those underlyings.

15. **Transactions for the Purchase of Property**

15.1 A derivative or forward transaction which will or could lead to the delivery of property for the account of the Trust may be entered into only if that property can be held for the account of the Trust, and the Manager having taken reasonable care determines that delivery of the property under the transaction will not occur or will not lead to a breach of the COLL Sourcebook.

16. Requirement to Cover Sales

16.1 No agreement by or on behalf of the Trust to dispose of property or rights may be made unless the obligation to make the disposal and any other similar obligation could immediately be honoured by the Trust by delivery of property or the assignment (or, in Scotland, assignation) of rights, and the property and rights above are owned by the Trust at the time of the agreement. This requirement does not apply to a deposit.

16.2 The above does not apply where:

16.2.1 the risks of the underlying financial instrument of a derivative can be appropriately represented by another financial instrument and the underlying financial instrument is highly liquid; or

16.2.2 the Manager or the Trustee has the right to settle the derivative in cash and cover exists within the Scheme Property which falls within one of the following asset classes:

16.2.2.1 cash;

16.2.2.2 liquid debt instruments (e.g. government bonds of first credit rating) with appropriate safeguards (in particular, haircuts); or

16.2.2.3 other highly liquid assets having regard to their correlation with the underlying of the financial derivative instruments, subject to appropriate safeguards (e.g. haircuts where relevant).

16.3 In the asset classes referred to in paragraph 16.2.2, an asset may be considered as liquid where the instrument can be converted into cash in no more than seven business days at a price closely corresponding to the current valuation of the financial instrument on its own market.

17. OTC Transactions in Derivatives

17.1 Any transaction in an OTC derivative under paragraph 13.1 must be:

17.1.1 in a future or an option or a contract for differences;

17.1.2 with an approved counterparty; a counterparty to a transaction in derivatives is approved only if the counterparty is an Eligible Institution or an Approved Bank; or a person whose permission (including any requirements or limitations), as published in the FCA Register or whose Home State authorisation, permits it to enter into the transaction as principal off-exchange;

17.1.3 on approved terms; the terms of the transaction in derivatives are approved only if the Manager carries out, at least daily, a reliable and verifiable valuation in respect of that transaction corresponding to its fair value (being the amount for which an asset could be exchanged or a liability settled between knowledgeable, willing parties in an arm's length transaction) and which does not rely only on market quotations by the counterparty; and that the Manager can enter into one or more further transactions to sell, liquidate or close out that transaction at any time, at its fair value; and

- 17.1.4 capable of reliable valuation; a transaction in derivatives is capable of reliable valuation only if the Manager having taken reasonable care determines that, throughout the life of the derivative (if the transaction is entered into), it will be able to value the investment concerned with reasonable accuracy:
 - 17.1.4.1 on the basis of an up-to-date market value which the Manager and the Trustee have agreed is reliable; or
 - 17.1.4.2 if the value referred to in 17.1.4.1 is not available, on the basis of a pricing model which the Manager and the Trustee have agreed uses an adequate recognised methodology; and
- 17.1.5 subject to verifiable valuation: a transaction in derivatives is subject to verifiable valuation only if, throughout the life of the derivative (if the transaction is entered into) verification of the valuation is carried out by:
 - 17.1.5.1 an appropriate third party which is independent from the counterparty of the derivative at an adequate frequency and in such a way that the Manager is able to check it; or
 - 17.1.5.2 a department within the Manager which is independent from the department in charge of managing the Trust and which is adequately equipped for such a purpose.

18. **Risk Management**

- 18.1 The Manager uses a risk management process, enabling it to monitor and measure as frequently as appropriate the risk of the Trust's positions and their contribution to the overall risk profile of the Trust. Before using the process, the Manager will notify the FCA of the details of the risk management process.

19. **Stock Lending**

- 19.1 The Trust does not enter into stocklending transactions.

20. **Significant Influence**

- 20.1 The Manager must not acquire or cause to be acquired for the Trust transferable securities issued by a body corporate and carrying rights to vote (whether or not on substantially all matters) at a general meeting of that body corporate if:
 - 20.1.1 immediately before the acquisition, the aggregate of any such securities held by the Trust, taken together with any such securities already held for other trusts for which it is the manager, give the Manager power significantly to influence the conduct of business of that body corporate; or
 - 20.1.2 the acquisition gives the Manager that power.
- 20.2 For the purposes of paragraph 20.1 of this Appendix, the Manager is to be taken to have power significantly to influence the conduct of business of a body corporate if it can, because of the transferable securities held for all trusts for which it is the manager, exercise or control the exercise of 20% or more of the voting rights in that body corporate (disregarding for this purpose any temporary suspension of voting rights in respect of the transferable securities of that body corporate).

21. **Concentration**

The Trust:

- 21.1 must not acquire transferable securities other than debt securities which:
 - 21.1.1 do not carry a right to vote on any matter at a general meeting of the body corporate that issued them; and
 - 21.1.2 represent more than 10% of these securities issued by that body corporate;
- 21.2 must not acquire more than 10% of the debt securities issued by any single issuing body;
- 21.3 must not acquire more than 10% of the units in a collective investment scheme;
- 21.4 need not comply with the limits in paragraphs 21.1, 21.2 or 21.3 of this Appendix if, at the time of the acquisition, the net amount in issue of the relevant investment cannot be calculated.

22. **Derivative Exposure**

- 22.1 The Trust may invest in derivatives and forward transactions as long as the exposure to which the Trust is committed by that transaction itself is suitably covered from within the Scheme Property. Exposure will include any initial outlay in respect of that transaction.
- 22.2 Cover ensures that the Trust is not exposed to the risk of loss of property, including money, to an extent greater than the net value of the Scheme Property. Therefore, the Trust must hold Scheme Property sufficient in value or amount to match the exposure arising from a derivative obligation to which the Trust is committed. Paragraph 23 (Cover for transactions in derivatives and forward transactions) below sets out detailed requirements for cover of the Trust.
- 22.3 A future is to be regarded as an obligation to which the Trust is committed (in that, unless closed out, the future will require something to be delivered, or accepted and paid for); a written option as an obligation to which the Trust is committed (in that it gives the right of potential exercise to another thereby creating exposure); and a bought option as a right (in that the purchaser can, but need not, exercise the right to require the writer to deliver and accept and pay for something).
- 22.4 Cover used in respect of one transaction in derivatives or forward transaction must not be used for cover in respect of another transaction in derivatives or a forward transaction.

23. **Cover for Transactions in Derivatives and Forward Transactions**

- 23.1 A transaction in derivatives or forward transaction is to be entered into only if the maximum exposure created by the transaction to which the scheme is or may be committed by another person is covered globally.
- 23.2 Exposure is covered globally if adequate cover from within the Scheme Property is available to meet the scheme's total exposure, taking into account the value of the underlying assets, any reasonably foreseeable market movement, counterparty risk, and the time available to liquidate any positions.
- 23.3 Property the subject of a stock lending transaction is only available for cover if the Manager has taken reasonable care to determine that it is obtainable (by return or re-acquisition) in time to meet the obligation for which cover is required.

23.4 The global exposure relating to derivatives held in the Trust may not exceed the net value of the Scheme Property.

24. **Cover and Borrowing**

24.1 Cash obtained from borrowing, and borrowing which the Manager reasonably regards an Eligible Institution or an Approved Bank to be committed to provide, is available for cover under paragraph 22 of this Appendix as long as the normal limits on borrowing (see below) are observed.

24.2 Where, for the purposes of this paragraph the Trust borrows an amount of currency from an Eligible Institution or an Approved Bank; and keeps an amount in another currency, at least equal to such borrowing for the time on deposit with the lender (or his agent or nominee), then this applies as if the borrowed currency, and not the deposited currency, were part of the Scheme Property, and the normal limits on borrowing under paragraph 28 (Borrowing powers) of this Appendix do not apply to that borrowing.

25. **Cash and Near Cash**

25.1 Cash and near cash must not be retained in the Scheme Property except to the extent that, where this may reasonably be regarded as necessary in order to enable:

25.1.1 the redemption of Units; or

25.1.2 efficient management of the Trust in accordance with its investment objectives; or

25.1.3 other purposes which may reasonably be regarded as ancillary to the investment objectives of the Trust.

25.2 During the period of the initial offer the Scheme Property may consist of cash and near cash without limitation.

26. **General**

26.1 It is envisaged that the Trust will normally be fully invested but there may be times that it is appropriate not to be fully invested when the Manager reasonably regards this as necessary in order to enable the redemption of Units, efficient management of the Trust or any one purpose which may reasonably be regarded as ancillary to the investment objectives of the Trust.

26.2 Where the Trust invests in or disposes of units or shares in another collective investment scheme which is managed or operated by the Manager or an associate of the Manager, the Manager must pay to the Trust by the close of business on the fourth business day the amount of any preliminary charge in respect of a purchase, and in the case of a sale, any charge made for the disposal.

26.3 A potential breach of any of these limits does not prevent the exercise of rights conferred by investments held by the Trust but, in the event of a consequent breach, the Manager must then take such steps as are necessary to restore compliance with the investment limits as soon as practicable having regard to the interests of Unitholders.

27. **Underwriting**

27.1 Underwriting and sub underwriting contracts and placings may also, subject to certain conditions set out in the COLL Sourcebook, be entered into for the account of the Trust.

28. **Borrowing Powers**

28.1 The Trustee may, on the instructions of the Manager and subject to the COLL Sourcebook, borrow money from an Eligible Institution or an Approved Bank for the use of the Trust on terms that the borrowing is to be repayable out of the Scheme Property.

28.2 Borrowing must be on a temporary basis, must not be persistent, and in any event must not exceed three months without the prior consent of the Trustee, which may be given only on such conditions as appear appropriate to the Trustee to ensure that the borrowing does not cease to be on a temporary basis.

28.3 The Manager must ensure that borrowing does not, on any business day, exceed 10% of the value of the Trust.

28.4 These borrowing restrictions do not apply to “back to back” borrowing for currency hedging purposes (i.e. borrowing permitted in order to reduce or eliminate risk arising by reason of fluctuations in exchange rates).

29. **Restrictions on Lending of Money**

29.1 None of the money in the Scheme Property may be lent and, for the purposes of this paragraph, money is lent by the Trust if it is paid to a person (“the payee”) on the basis that it should be repaid, whether or not by the payee.

29.2 Acquiring a debenture is not lending for the purposes of paragraph 29.1, nor is the placing of money on deposit or in a current account.

30. **Restrictions on Lending of Property Other Than Money**

30.1 Scheme Property other than money must not be lent by way of deposit or otherwise.

30.2 Transactions permitted by paragraph 19 (Stock lending) are not to be regarded as lending for the purposes of paragraph 30.1.

30.3 The Scheme Property must not be mortgaged.

30.4 Nothing in this paragraph prevents the Trustee at the request of the Manager from lending, depositing, pledging or charging Scheme Property for margin requirements where transactions in derivatives or forward transactions are used for the account of the Trust in accordance with COLL 5.

31. **General Power to Accept or Underwrite Placings**

31.1 Any power in COLL 5 to invest in transferable securities may be used for the purpose of entering into transactions to which this section applies, subject to compliance with any restriction in the Trust Deed. This section applies, to any agreement or understanding: which is an underwriting or sub-underwriting agreement, or which contemplates that securities will or may be issued or subscribed for or acquired for the account of the Trust.

31.2 This ability does not apply to an option, or a purchase of a transferable security which confers a right to subscribe for or acquire a transferable security, or to convert one transferable security into another.

31.3 The exposure of the Trust to agreements and understandings as set out above, on any business day be covered and be such that, if all possible obligations arising under them had immediately to be met in full, there would be no breach of any limit in the COLL Sourcebook.

32. **Guarantees and Indemnities**

32.1 The Trustee for the account of the Trust must not provide any guarantee or indemnity in respect of the obligation of any person.

32.2 None of the Scheme Property may be used to discharge any obligation arising under a guarantee or indemnity with respect to the obligation of any person.

32.3 Paragraphs 32.1 and 32.2 do not apply to in respect of the Trust:

32.3.1 any indemnity or guarantee given for margin requirements where the derivatives or forward transactions are being used in accordance with COLL 5; and

32.3.2 an indemnity given to a person winding up a body corporate or other scheme in circumstances where those assets are becoming part of the Scheme Property by way of a unitisation.

APPENDIX VI

PAST PERFORMANCE AND INVESTOR PROFILE

This performance information is net of tax and charges (subscription and redemption fees) but does not include the effect of any preliminary charge that may be paid on the purchase of an investment.

Basis: Bid to Bid, with net income reinvested, net of tax and charges. Source: FE 2014.

Performance data above is shown on annual basis from 31 December to 31 December for the last 10 years.

The Trust was launched on 25 October 1996.

There is insufficient performance data available for B Units.

NOTE: Past performance should not be taken as a guide to the future. Please see Appendix I for the Trust's objective and below for an explanation of investor profile.

Whether an investment in the Trust is appropriate for you will depend on your own requirements and attitude to risk. The Trust is designed for investors of any category, including retail investors, who:

- want to achieve capital growth over the medium to longer term through investing in a diverse portfolio of UK and overseas investments with the expertise of the Investment Manager;
- can meet the minimum investment levels;
- are able to commit to a long term investment in the Trust and take the risk of losing part or all of their investment capital; and
- who understand and are willing to take the risks involved in investing in the Trust (as detailed under "Risk Factors").

If you have any doubts as to whether the investment is suitable for you, please contact a financial adviser.
