

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

IFSL Church House UK Smaller Companies Class B Shares

A Sub-fund of the IFSL CH Special Mandates Fund (ISIN Accumulation GB00BLY2BF03)

This Fund is managed by Investment Fund Services Limited (IFSL)

Objectives and Investment Policy

The aim of the Fund is to provide capital growth, which is profit on investments held, over the long term (at least five years).

The Fund is actively managed, which means the Investment Manager decides which investments to buy or sell and when.

At least 80% of the Fund will be invested in the shares of UK smaller companies. UK companies are those listed, incorporated or domiciled in the UK and smaller companies are defined by the Investment Manager as those with a market capitalisation (the market value of a company’s shares) of less than £2bn at the time of initial purchase. The Fund may invest in any industry or sector.

Up to 20% of the Fund may be invested in other assets, including the shares of companies with a market capitalisation of £2bn or more at the time of initial purchase, the shares of overseas companies (developed markets only), bonds (which are loans typically issued by companies and governments) and money market instruments (which are short-term loans).

The Fund may hold up to 20% in cash to enable the ready settlement of liabilities, for the efficient management of the portfolio or in pursuit of the Fund’s investment objective.

The Fund does not invest in derivatives.

The Investment Manager focuses on identifying high-quality businesses within the smaller companies’ universe, looking for investment opportunities based on attractive valuations, while also carefully managing liquidity. Typically, the Investment Manager targets companies with a minimum market capitalisation of £250 million at the time of initial purchase.

There are no strict limits on the total number of companies the Fund can hold. However, the Investment Manager typically operates the Fund with a portfolio of between 30-40 companies.

The Investment Association (IA), the trade body for UK investment managers, has created a number of ‘sectors’, as a way of dividing funds into broad groups with similar characteristics.

The Fund’s investment policy is most closely aligned with funds in the IA UK Smaller Companies sector. The Fund is not managed to a benchmark, however you may want to assess the Fund’s performance compared to the performance of this sector.

Funds in the IA UK Smaller Companies sector are required to hold at least 80% in smaller companies at all times, whereas the Fund will invest at least 80% in smaller companies at the time of initial purchase, meaning the Investment Manager may continue to hold these companies as they grow in size. The Fund may therefore have less exposure to smaller companies than the average fund in the sector. This may at times cause performance to diverge away from the sector average. Investors should consider this when assessing performance.

Income is not distributed but is rolled up (accumulated) into the value of your investment.

You can buy or sell all or part of your investment on any business day subject to the minimum holding requirements.

Risk and Reward Profile

This indicator aims to give you a measure of the price movement of this share class based on past data. It uses historic returns over the last five years. If five years’ data is not available, simulated data based on a representative portfolio are used.

Past data may not be a reliable indication of the future risk profile of the Fund. The risk category may change in the future and is not guaranteed. The lowest category does not mean risk free. The value of investments and the income from them may fall as well as rise and you may not get back the amount you originally invested.

This Fund has been measured as 6 because its investments have experienced high volatility in the past. The Fund’s volatility is affected by various risks, including:

The Fund will be exposed to financial markets and market conditions can change rapidly. Prices can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

The Fund will be exposed to the shares of smaller companies which are typically riskier than larger, more established companies. Difficulty in trading may arise, resulting in a negative impact on your investment. Shares in smaller companies may be harder to sell at a desired price and/or in a timely manner, especially in difficult market conditions.

The Fund may be exposed to bonds, the prices of which will be impacted by factors including; changes in interest rates, inflation expectations and perceived credit quality.

The Fund will invest mainly in the UK therefore investments will be vulnerable to sentiment in that market which may strongly affect the value of the Fund.

In certain market conditions, the Fund may not be able to sell one or more of its assets for the full value, or at all. This could affect the performance of the Fund and could cause the Fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

A company that we deal with may renege on its obligations, costing the Fund money.

Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the Fund, or inconvenience to investors.

Investors are encouraged to read the ‘risk factors’ section of the Fund’s prospectus to find a more extensive list of the risks that apply to this Fund.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges shown are maximum figures. In some cases you may pay less - you can find this out from your financial adviser.

The ongoing charges figure is based on expenses as at 30/09/2025. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please see Section 8 of the Fund's Prospectus, which is available at www.ifslfunds.com.

One-off charges taken before or after you invest

Entry Charge	0.00%
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested.

Ongoing Charges	1.00%
-----------------	-------

Charges taken from the fund under certain conditions

Performance Fee	None
-----------------	------

Past Performance

Historic performance to 31 December 2024

Past performance is not a reliable indicator of future performance; the value of your investment and any income from it can go down as well as up.

Performance returns are based on the net asset value with distributable income reinvested and takes account of all ongoing charges, but not entry and exit charges. The past performance of this share class is calculated in GBP.

This Fund was launched on 29 February 2012.

This share class was launched on 27 November 2014.

On 24 August 2020 the Fund converted from a NURS to a UCITS.

Benchmark: IA UK Smaller Companies.
